Grand Jury Presentments.

We the grand jury chosen and sworn at the April term of Lumpkin county Superior Court 1902, having performed the duties devolving upon us as a body beg to submit the following report:

We have through appropriate committees examined into the various offices and institutions of the county and find same in good condition.

We have examined the dockets of Justices of Peace and Notaries Public and find all of same in reasonable good condition.

We have through the County Finance Committee examined into the various offices of the county. See report of said finance committee hereto attached.

We have visited the jail and find every thing in good condition with the exception of brick work near rear entrance which should be plastered over, and we recommend that same be done.

The following persons are appointed to act as finance committee to report at the next term of court, to wit: J. F. Castleberry, Thos. A. P. Tate and W. J. T. Hutchinson.

PAUPERS.

Unfavorable reports having reached the grand jury regarding treatment of paupers, committee consisting of Thomas A. P. Tate, M. G. Head and J. A. Hollifield, was appointed to investigate and report on the same. The above committee after visiting the paupers report they found clothing in some respects insufficient, the paupers doing field work, and assisting in washing, etc. All of which appears to this body to be inconsistent with, if not in open violation of the contract now existing between the manager of said paupers, and the ordinary of Lumpkin county.

In view of these facts we hereby recommend: That while the paupers express themselves as being well treated and perfectly satisfied, the ordinary shall see that the impression is made upon said paupers that no labor is required of them in compensation for their board or treatment—that any deficiency in clothing be promptly supplied, and that the managers of above mentioned paupers be required to comply strictly with the existing contract between himself and Lumpkin county.

ACCOUNTS.

Account of W. S. Huff for taking testimony at inquest held over Pierce Grindle and William Holeman and making brief of same was reduced from \$10.00 to \$5.00 and ordered paid.

Account of ordinary for \$122.78 was approved and ordered paid.

We recommend that account of Tate, Littlefield, & Co. for \$2.00 for conveyance to visit paupers be paid.

We recommend that the ordinary pay to John Hester the sum of three dollars per month for support until otherwise ordered by the grand jury of Lumpkin county in regular session.

OFFICES, FIXTURES, REPAIRS, &C.

Committee consisting of J. T. Miller, J. C. Higgins and John F. Sargent appointed to visit the various offices and report any thing needed in way of furniture or fixtures, and examined the condition of court house, make the following report:

We recommend that good substantial and stationary raised seats be arranged for the accommodation of the special jury, same constructed in sections with isles running between, each seat of section to accommodate from 3 to 4 persons. We also find one large table

used for the convenience of the court, which needs repairs, also some leaks and other repairs needed about the building.

We recommend the purchase of a book-case for use of county school commissioner.

CORONER'S INQUEST, ACCOUNTS &C. Account of G. McGuire, coroner, for burial expenses of William Franklin was reduced from \$20.00 to \$15.00 as allowed by law.

Account of G. McGuire, coroner, for burial expenses and holding inquest over bodies of Pierce Grindle and William Holeman for \$41.90 was reduced to \$30.00 as we find the items of holding inquest, summoning jury and witnesses to be illegal.

We find that inquest held over body of Mary Lou Sheppard by coroner to be illegal and recommend the coroner refund to the county the sum of \$11.60, same being amount received for holding said inquest.

We recind our action in ordering account of W. S. Huff paid for taking testimony at inquest held over bodies of Pierce Grindle and William Holeman and recommend ordinary not to pay the same.

PENSIONS.

We recommend that William Hollaway be re-instituted on the pension rolls.

We recommend that M. J. Williams, Joel T. Miller and E. S. Cope land be appointed as county registrars.

The following persons were elected to fill the vacancies on the board of education: G. G. Evans, Joel T. Miller and John F. Sargent to fill vacancies of J. K. Bearden, W. J. T. Hutchinson and Next Mays respectively.

NOTARIES PUBLIC.

We recommend that John Cochran be appointed as Notary Public for the 34th district, the former appointee having moved out of the county.

We recommend that John B. Ricketts be appointed Notary Public of Porter Springs district No. 1537.

ROADS.

We recommend that the present system of road working be continued, and that the road commissioners be required to keep the public roads in good condition at all times of the year.

We recommend that the line between Cane Creek district and Dahlonega district on the Cooper Gap road be definitely established, and that the commissioners having charge over this section of road, be required to put in proper condition that portion of road in dispute between the two districts, and which has been neglected from time to time. Attention has been repeatedly called to this matter, and we insist same be given the attention it deserves.

We recommend that road be changed, commencing at ford of creek at the Head place and running around by Andrew Heads, and intersecting with the Cooper Gap road at the two mile post.

We further recommend that the ordinary appoint marking commissioners to go and mark road out, and put it on the best ground possible, same to be done soon as practicable, and if not done by next term of court, the ordinary and commissioners are to show cause to the court why same has not been done.

We find there are some needed repairs on Bearden Bridge, also on small bridge across ditch this side of Bearden Bridge, which we recommend the ordinary to look after at once.

We recommend that the contract for furnishing coffin and burial outfit for the paupers of Lump-

kin county be let to the lowest bidder, said contract to be given to only perfectly responsible parties, who must conduct same in a good, decent, christianlike manner. In taking leave of His Honor Judge J. B. Estes and of our Solicitor Col. W. A. Charters we wish to extend them our hearty thanks and sincere appreciation for the many courtesies and favors shown this body, and commend their untiring energies in behalf of peace, law and order. We also extend our thanks to our Bailiff H. L. Coffee for his attention and services to the body.

We recommend that the foregoing presentments be published in the DAHLONEGA NUGGET and the Dahlonega Signal.

FINANCE COMMITTEES REPORT.

April 14, 1902.
To the Honorable Grand Jury of Lumpkin County, Georgia, April Term 1902.

We, the Finance Committee appointed and sworn beg leave to make the following report:

We have examined the tax collectors final settlement with the ordinary for 1901 and find same correct as appears on the ordinary's minutes of county court page 261.

SHERIFF'S OFFICE.

In our examination of the book and accounts pertaining to the sheriff's office we find them correct with the exception of two slight errors—one 40 cents in favor of the sheriff, and one of \$1.00 in favor of the county, leaving the county due the sheriff 60 cents up to the 1st of April.

We find that the jailers expenses since the last report has been \$217.05 for which he has received county order except the 60 cents above stated.

CLERK'S OFFICE.

We have examined the books of clerk John H. Moore and find them neatly and correctly kept. We find from the book of fines for the October adjourned term, 1901, that the Solicitor General, Clerk and Sheriff costs in the state cases amounting to \$983.70. Fines collected \$544.00, leaving \$3 credit on insolvent cost of \$250.30.

COUNTY TREASURER.

On examining the books of J. B. Brown, county treasurer, we find them neatly and correctly kept. We find as follows:

Amount on hand from last re. \$ 76
Rec. from all sources..... \$140.82
\$216.82

Paid out on proper vouchers:
County fund..... \$2700.30
Bridge fund..... 3548.38
Jury fund..... 450.10
Jail fund..... 236.63
Pauper fund..... 304.38 \$5109.06

Bal. in treas. hands..... \$32.49

We find that the county is still due treasurer Brown \$3.65, balance on commissions up to date.

COUNTY SCHOOL COMMISSIONER.

We have inspected the books and accounts of J. J. Seabolt, County School Commissioner, and find them correct.

We find as follows:

To bal. on hand from last re. \$ 425.22
3 checks from State S. Com. ... 4101.92
Total..... \$4527.14

Pd. out on proper vouchers..... \$456.25

To balance on hand..... \$1070.89

ORDINARY'S OFFICE.

We have inspected the various books and vouchers of the ordinary's office and find them correctly kept with the exception of one order given to George Grogan, order number 164 for 5 cents more than voucher.

We find that the indebtedness of the county up to date is a little less than \$3000.00. All of which is respectfully submitted.

When in Gainesville call on N. N. Littlefield for high grade Guano and Acids at the lowest price.

Most of Dahlonega's attorneys have been attending Dawson Superior Court this week.

Frank Meaders, after being absent down the country selling horses for some time, returned home this week.

A gold mining company in Carroll county has sent for Mr. Chester of Dahlonega to come and take charge of its mine.

Interesting memorial exercises were held nearly all over Georgia last Saturday except in Dahlonega, it being postponed here.

It seems to us that it would be more convenient for our ladies to have their dresses made shorter so they would not have to hold them up when crossing mud holes and dirty places.

Jackson Foster, residing in Nimbleshaw district is 63 years of age and never had a case either in the Superior or Justices courts in his life. Neither has he ever sued or been sued.

Wm. J. Worley left for Macon this week to represent the Dahlonega lodge in the Grand Royal Arch Chapter, which convened on the 30th. Mr. Worley's position is Past High Priest of the local lodge at Dahlonega.

Young man, listen. Henson Chapman of this county has a family of twelve, none of whom have ever used any tobacco, snuff or liquor. Mr. Chapman worked in the mines at Dahlonega and shanted for two years until he made enough money to buy a five hundred dollar farm.

One day last week Mrs. T. J. Norrell, near Auraria, Ga., gave birth to three children—two girls and one boy. Two died and at last accounts the other was doing well. Later—Mrs. Norrell and the other child are dead, the wife leaves a husband, seven children and a host of friends to mourn her loss.

One day last week a wedding occurred in the store of Mr. J. W. Rider of this place, being his daughter Miss Sallie who was wedded to Mr. Robert Chatten by Esquire Henry Lee. When the ceremony was over they got into a vehicle and went away to settle down and commence the pleasures and troubles of life together.

The colored Baptists of this place are as strong now as ever. Those who had stepped down from grace went up last Saturday and said that they were sorry of it, and are members now in full fellowship according to the Baptist doctrine. Enla Jefferson was ordained to preach and Rev. Samuel Goodluck of Gainesville, Ga., was selected to preach the thanksgiving sermon here on the second Sunday in May.

F. E. Brooks, the California Poet, finished the lectures for the Dahlonega Lyceum Course here last Saturday night which was said to be very interesting. The most of these lectures delivered here by different parties have been very interesting and instructive, while some were sorry, not creating any interest whatever while mimicking an intoxicating person and such like. This is something we see natural too often free of charge by men who can't help it.

Lumpkin county still has some few life time balliffs who have not grown too old to continue serving. When they get so they can't serve and ride about we suppose they will be put on the retired list and draw a fixed amount from the county. One of these last week cost the county twenty-five or thirty dollars extra by claiming that he summoned witnesses, all being arrested on a rule but clearly showed that they had not even seen the man.

Gen. Warner is now absent in the east.

Watch your dates and renew your subscriptions.

Mrs. B. F. Anderson visited Gainesville this week.

Zeko Shelton, of Dawson county, was brought in Tuesday charged with illicit distilling.

Green Abercrombie caught a four pound blue cat out of the Chestate river the other day.

Jess Adams' house caught a fire Tuesday night from a defective stove flue but was extinguished before doing any damage.

The next commencement sermon of the N. G. A. College will be preached by Rev. W. F. Quillian, pastor of the Methodist church in Gainesville.

Both the sons of "Buddy," Shed and James Brown found a bee tree each last week near town, which shows that we live in a land of sweetness.

John Hulsey, of Gowen, Hall county, lost his account and day books and about \$50 in notes. The finder will please deliver them to him and be rewarded.

If you need any badges or programs for commencement let us hear from you. We will do the work nice and cheap as it can be done elsewhere.

The last grand jury acted on 35 bills, returning 26 of them true, which is very good work considering the hiding out of so many witnesses who could not be summoned.

Mr. Ferguson says he didn't intend to accuse any one in his article of writing the letter about him signed Voter. The printer mistook a word for Cornet is why it read that way.

We hear the name of Dunk Holifield, of Auraria district, favorably mentioned by his friends for tax receiver. Dunk is a clever, good citizen and would make an interesting race.

The last grand jury presentments will be found on the first page of this issue. The accounts of coroner McGuire recommended either to be reduced or not allowed, were ordered paid by Judge Estes.

The overseers and road hands of Frog Town district are requested by the commissioners to meet on the third Saturday in May for the purpose of taking up some road matters of importance to the district.

All the prisoners paid their fines by Tuesday night except Frank Little and Bill Adams, who were to have been sent to the chain gang on Wednesday but their departure was delayed on account of Little's sudden sickness. Little goes for 12 months and Adams 6.

One night last week W. W. Miller, of Villa Rica, Ga., was badly though not seriously injured by a car down at the Hand mine. The car was partially loaded with ore and was backing. Mr. Miller did not hear or notice it in time for the noise of the drills, to keep from being crushed against a bank. He was carried to his boarding house at once where proper medical treatment was given and he is now up and out again.

Gold City Lodge No. 117, K. of P. held their regular weekly meeting Monday night in their new castle hall over Price & Reese's store. The outlook of this organization, which has its antitype of friendship and mutual confidence from the historical incident and almost unequal friendship existing between Haemon and Pythias was never brighter in Dahlonega. Many applications are to be handed in within the next few months. The banners of this society float and waive over a half million members. Ever since its foundation in 1864 its membership has increased by leaps and bounds and who can doubt that before a score of years shall have passed they will have bound together a million immortal souls upholding the true principals of Friendship, Charity and Benevolence.

Court Proceedings.

We give the remainder of the Superior Court proceedings left off from last week:

E. Patterson vs. Daniel London, foreclosure of mortgage.

State vs. Duff Hunter, colored, cattle stealing, verdict of guilty—sentenced to penitentiary for three years.

State vs. J. R. Long, murder—mistrial.

The following jury commissioners were appointed to fill the expired terms of B. F. Satterfield and W. G. Spencer, to-wit: Joel T. Miller and John R. Graham for six years.

W. J. Burt, et al. vs. Mrs. E. A. Smith et al., petition for partition. Motion to make Sallie C. Taylor party defendant.

M. L. Anderson, administrator of Juria Teal vs. Sam Teal—agreement of settlement.

W. W. Murray and J. B. Clements vs. D. H. B. Hooper, partition—commissioners appointed to sell property.

W. A. White vs. J. A. Howard, foreclosure of mortgage.

Biddle Craft & Co. vs. Matthews Drug Co., answer of receiver.

State vs. Tom Beasley, Joe Beasley, John Beasley and Ben Beasley, murder—verdict of guilty as to John and Ben Beasley for voluntary manslaughter—sentenced to penitentiary for a term of 20 years each.

The following bonds were forfeited, to-wit:

C. M. Eldridge, principal and W. H. Griffin security.

W. J. Crane, principal and W. W. Wehant security.

But Blackwell, principal and F. M. Turner, et al. securities.

W. J. Crane, principal and B. A. Crane security.

Wm. Adams, principal and H. D. Ingersoll security.

Mary Black, principal and J. M. Lingerfelt security.

J. W. Cain, principal and R. M. Pirkle security.

Tom Sullins, principal and R. C. Burgess security.

Walker Parks, principal and J. W. Parks security.

Oscar Roberts, principal and R. H. Roberts, F. C. McDonald, R. L. Porter, Homer Kemp securities.

The Murder Cases.

The jury in the case of Rob. Long charged with the murder of Henry Clark failed to agree last week, standing six and six and with no likelihood of a change were allowed to make a mistrial and Long's bond fixed at \$2,000 by Judge Estes and his case will come up at the next term of court who it is believed by a large number of people will be acquitted unless there is some new evidence introduced. Cols. Lilly and Baker represented the defendant.

The case of Tom Beasley and his three sons, Joe, John and Ben Beasley, charged with the murder of Pierce Grindle began on Wednesday morning, requiring about one hundred men to select the jury from.

N. G. A. College Wins.

Cadet Noel T. Grant, of Clarksville, Ga., won the oratorical prize for this institution at the contest in Atlanta last Friday night to the great delight of his host of friends and those interested in this noble institution throughout the state of Georgia, causing us even to rejoice more because he is a North Georgia son.

Saturday morning when the news first reached Dahlonega the cadets fired the cannon a number of times after which they paraded the streets with the colors and yelled until they were hoarse and almost exaused. It is a great victory for this college and they had a right to rejoice.

And that night when Mr. Grant and his companions arrived, 75 or 100 strong, the city was turned over to them and when the college bell commenced ringing as a signal every church and other bell began while the reports of the cannon could be heard near 25 miles away, jarring every building in town and those some distance around, which was kept up to about twelve o'clock. Then everybody retired and spent the rest of the night and until a late hour the next morning in pleasant dreams.

The general average stood as follows: N. T. Grant, of the N. G. A. College, 924; Sidney Hatcher, of Mercer, 89; Sam Johnson, of University, 84; Alfred Broom, of Emory, 82; C. H. Kicklighter, of Tech, 784.

Mr. Grant belonged to the Phi Mu Society of the N. G. A. College which causes an additional good feeling among the members of that society.

We were not into the bell ringing or shooting of Saturday night, but here goes three cheers for Mr. Grant and the N. G. A. College.

A banquet will be given Mr. Grant to-night (Friday) by the citizens which promises to be the biggest one ever held in Dahlonega. Free invitations to students only.

We are authorized by the committee to say that cards of invitation will be issued to all invited guests, which cards will be presented on entrance.

Our New Railways.

The North Georgia Electric Co., which owns the Dunlap shoals, had a trust deed, made to the Knickerbocker Trust Co., recorded Monday. The deed is to secure \$300,000 of first mortgage bonds on the property owned by the company. It is the same kind of deed as that made by the Gainesville and Dahlonega Railway Co. and to the same trust company.

The two companies are made up of the same men, separate corporations. General Warner is president of the power company and Judge Murray president of the Railway Company.

These corporations are having trouble in securing material, and as a result all class of work is being retarded.

A large squad of hands are now at work on the Chestate dam and in another month the company hopes to complete it. The dam is to be made 27 feet high and some parts of it are now nearly 26 feet. The street grading is completed, and Mr. Carlisle says he will do nothing more on them until the rails, etc., arrive. When they are here he can put a corps of hands to work, level up the streets, and lay the track as they go, and in that way not materially interfere with travel.

A great deal of work has been done at the Dunlap Shoals. The rock on either side of the river that will be used as abutments have been cleaned off and considerable excavating done. On this side of the river the bank has been dug down nearly to the water's edge. A large boiler is placed on either side of the river and a shop built. The grade on the Dahlonega railroad is nearly completed as far as the Chattahoochee, and some grading has been done beyond the river. All of this work represents an expenditure of between \$50,000 and \$100,000.—Euglo.

Mining Notes.

We understand that Mr. Breyman has written a letter for the Singleton mine to be started up next Monday.

All three of the big mining companies, Standard, Consolidated and Crown Mountain have a meeting next Wednesday.

M. Chester has been taking out a test run of ore down at the Singleton for some days which has been crushed and yielded well.

Work will likely be resumed on the Gorge dam in a few days as the power is being needed badly during the dry season by some of the mining companies.

At the Horner mine prospecting still continues and we are told by Capt. Ingersoll, under whose charge it is, that they are getting some fine shows. This mine has been idle for many years and we are glad to learn that there is a likelihood of work being resumed at it continuously again in the near future.

Work is progressing at Crown Mountain nicely, taking much of the yellow metal from this celebrated mountain. Since the last gear wheel of the pump has recently been made heavier it has been moving right along without any delay. There is but one trouble now. They need more power, being unable to run the mill only at night during a protracted dry spell and the other machinery during the day. But they expect to overcome this by getting the necessary power from the Gorge plant, yet it will take some time to complete the dam. When this is done the mill and all other machinery can be run on full time both day and night. There is plenty of good ore in Crown Mountain to last for years and years, causing its managers to have no fears in making any outlay of money necessary to take it out.

"Please find enclosed \$1.00 for which send me the Nugget for one year. I want to know if The Consolidated Gold Mining Co. is still on earth. If so what are they doing?" writes a gentleman from Springfield, Ohio. Well, the company under the general management of Mr. Breyman, vice president, has been working a small force of hands, for several months running from 25 to 80 stamps of the big mill, under the supervision of native mill men, doing well and making money from ore taken from the Hand until recently. It is said that the vein "pinched," but no doubt it will come in again. Nothing much can be done for some days until the air compressor is repaired, the broken and worn out parts having already been ordered. Work is still progressing at the Benning, the ore of which is crushed by the Hand mill, all belonging to the same company.

We understand that it is the intention of the college trustees to give Hon. W. H. McAfee and Hon. G. D. Bruce, ex-senator and ex-representative, a banquet in the girl's dormitory during commencement to show these gentlemen their appreciations for the services they rendered the college while in the legislature.

The South Carolina Interstate and West Indian Exposition at Charleston will close on the first day of June and the last opportunity to visit this wonderful exhibition of the resources of our Southland at a low rate will be given our people on Wagner Day, May 22nd. The round trip rate will be three dollars and fifty cents from Gainesville, tickets will be sold for all trains on May 21st., limited to return May 24th., just listen at this. You may leave Gainesville via the Gainesville Jefferson and Southern Railway at 7 a. m., May 21st., and arrive at Charleston at 7 p. m., same day, returning leave Charleston at 7 a. m., May 24, and arrive in Gainesville for supper and spend four hours in the beautiful city of Augusta. Think it over and go down with us. It is a fine show.

Mrs. Strickland is in Atlanta this week laying in a supply of more millinery goods.

Dr. Miles' Pain Pills.

"As a result of neuralgia I lost the sight of my right eye, and the pain I have suffered is incomprehensible, being obliged to take opiates almost continually. A friend gave me one of Dr. Miles' Pain Pills and it promptly relieved me. I then purchased a box and my trouble is gone. They have also cured my daughter of nervous headache, and I heartily recommend them to others."—W. J. Gossard, Richmond, Texas.

Cure Cold in Head.
Kermott's Chocolates Laxative Guaiac, easy to take and quick to cure cold in head and nose.

We feel confident that Col. Estill will carry Lumpkin county now.

The ex-tax collector of Floyd county was last week acquitted of embezzlement.

Hon. Dapont Guerry would make or save votes by bringing his campaign speeches to a close.

People of Lumpkin county, you want a railroad, don't you? Well Mr. Guerry is fighting these enterprises and is not the man we want for governor.

The confederate reunion in Dallas, Texas, was a grand affair last week. The next session will be held in New Orleans. Gen. John B. Gordon was re-elected commander.

"Temperance people, we are surprised at you. Don't you know that Mr. Guerry if he was elected could no more stop the sale or use of liquor than he could fly. He would be only a figure head. Look at the situation in Dahlgren. Here last week there were numbers of gallons of liquor sold even during the session of the grand jury and court, and watchful revenue officers and town officials trying to keep it down. Now, if Mr. Guerry was elected what could he do sitting in Atlanta? Nothing. This is his plan of trying to ride into office.

Road Notice.

W. T. Butler and others having applied for the establishment of a new public road of the second class, to begin at the Elling road at the corner of Henry Chatten's fence and running in the direction of Dahlgren, by the residence of Henry Chatten, connecting with the Cane Creek road in the 9th district G. M. This is to notify all persons concerned that on and after the 1st Monday in May next said new road will be finally granted if no good cause to the contrary is shown. This the 5th day of April, 1902.

OUR TEXAS LETTER.

Prof. A. W. Cain Explains
the Uniform School Book
System in His State.

FLORESVILLE, TEX.,
April 19, 1902.
MR. W. B. TOWNSEND,
DAHLONEGA, GA.

DEAR SIR:—

In response to your inquiry I will say we have State uniformity of text books in this state. After giving the plan upon which the books are published I will give some facts touching upon the system.

Text books are adopted every five years. When the time for adoption comes the governor appoints a state Board composed of five members who receive sealed bids from any publisher who may desire to place a bid for the contract to furnish any particular book. For instance several companies may propose to furnish arithmetics at certain cut prices as stated in their bids. The state Board examines the several books together with the prices submitted and makes its selection. And so on with all the other books. In this way several publishers may have contracts with the state—each furnishing his particular book or books. When the list is completed and the books once adopted they can not be changed in less than five years and it is a strict violation of the law to supplant the adopted books by any other book.

Now let's see if state uniformity is beneficial. The advocates of the system say that county Boards are incompetent to select a set of good books. They say these Boards are generally composed of good, honest men but often times these men do not know a good book from a sorry book. Now is this evil corrected by state uniformity? In Texas it is not.

It is claimed that the uniform system has a tendency to harmonize the school system of the state just as a graded school harmonizes the course of study in a town. My opinion is that this is true.

Uniformity, it is claimed benefits the moving class of people, and also all schools located near county lines where pupils cross over from another county. This is all true but the moving class embraces, it is said, only five per cent of the population. Does uniformity make books cheaper? Well, let's see I give below a list of the books used in the fifth grade of our school. In the first column of figures I give the regular price of the books; just what they cost at every place in the United States where they are not sold under uniformity contracts. In the last column I give the uniformity price for which the same books are sold here in Texas:

| | | |
|--------------------------------|--------|--------|
| Stickney's Fifth Reader..... | \$0.40 | \$0.45 |
| Pennylacker's Tex. Reader 0.75 | 0.75 | 0.65 |
| Denson's Speller..... | 0.25 | 0.20 |
| Hyde's Grammar..... | 0.50 | 0.35 |
| Rand McNally's Geography 1.25 | 1.25 | 0.81 |
| Hatch's Physiology..... | 0.35 | 0.40 |
| Sutton's Arithmetic..... | 0.35 | 0.24 |
| Total..... | \$4.25 | \$3.10 |

From the above figures you will observe that \$1.15 is saved on each set of books for this grade. For lower grades it would be less; for higher grades more. There are 850 pupils enrolled in our school here, and after making a liberal allowance for all old books carried over from previous years I feel safe in saying that uniformity saves from \$200 to \$300 for our patrons every year.

Now what are the objections urged against the uniform system? It is claimed that any system that seeks to put every pupil in ex-

actly the same place, just as any brick may be fitted in the same hole in a wall, is detrimental. My notion is the argument contains much theory and some good truth. I think the rates is about sixteen to one.

The opponents of the system say it fosters trusts and monopolies. Under the plan of Texas it does not. It brings about the sharpest competition.

They tell you that the books are an inferior quality. But this is not the case. Sample books are deposited with the governor when the contract is made and all books must be as good as the sample books.

It is claimed that state uniformity "points with a threatening finger" to a national uniformity. Well, suppose we turn the argument around and say that the county system points to a district system and a district system points to a separate system for each school and that points to a separate set of books for each pupil. This argument is just as good as the other for neither has any weight.

Again it is claimed that state Boards would likely be side tracked by bribes. I don't doubt this argument in the least. It is the opinion of many well posted men that such has been the case here in Texas. It is claimed that book companies have hurriedly stuck together a few facts and called the bundle a book and induced some influential man of the state to claim the authorship of the book. (Of course the company would pay him a royalty on the book for his kindness). And by the influence of the "author"—this home author, you know—who perhaps has two or three special friends on that Board, and by other fool means the so called book is adopted, bearing the name of a man who didn't write a single sentence in it. Such a total disregard for honor and honesty can not fail to injure the school system. This is, in my opinion, the greatest, and in fact the only real and potent objection that can be urged against the uniform system. This may never happen in any other state; it may never happen again in Texas but I am assured that such has been the case and some of adopted books prove it beyond a doubt.

There are a great many arguments and still more pet theories advanced both for and against the uniform system but after coming into direct contact with both systems I have noted the most important facts as they occur to me. Draw your own conclusion from the facts I have given you and say for yourself whether the uniform system would benefit the people and the schools of Georgia.

Respectfully,

A. W. CAIN.

There would be more marriages if the women took the matter of proposals into their own hands, declares the Roy, Thomas B. Hyde, of Cincinnati. "Some men don't know how to propose; they are too bashful. Women will have to help them out. Give women the right to propose and there will be more marriages. Why should a woman die of love because of a false sentiment of modesty? Begin immediately, ladies. Then we clergymen will have something to do. Business is dull now. Marriage is solemn, but single life is more so."

An illicit distillery was destroyed in Atlanta last week and two or three men arrested for running it. This makes it mighty convenient for the officers. But they don't get any mileage nor traveling expenses.

A Few Important Facts.

EDITOR NUGGET:—

I wish again to call attention to the fact, that the best time to transplant boxwood and other evergreens is from the 10th to the 30th of June, than at any other season of the year. Please try the experiment.

Also it is a fact that if grave vines and all farm walnut trees, if pruned on the new moon in May, will not bleed from the wound, but it would be better to apply a coat of paint made of red lead and linseed oil to the cut parts.

I will also call attention to another fact, that strong hot sage tea will relieve the hiccoughs, and if the trouble returns repeat the dose of strong hot sage tea. This fact I discovered in 1868.

I will state another fact which I will call attention to, that Epsom salts in solution will relieve the pain in a burn to the human flesh, absorb the heat and inflammation and take out all the swelling of the parts, and leave the wound in a favorable condition to heal up and get well, by the use of the salts or other remedies. This discovery was made by my wife about the year 1868 or 1869. I have used the remedy with success in many cases and have also discovered that it will relieve the pain and absorb the inflammation in other injuries, as well as in burns.

DR. N. F. HOWARD.

P. S.—One other fact is this when a cat gets on fire he lies down and rolls over and over until the fire is extinguished, and it would be well for people to remember this and follow the same way.

Would that every newspaper in existence would publish these facts discovered in the nineteenth century that all people might be benefited by the knowledge thereof.

Picnic on Blood Mountain.

On Saturday, the 18th of April a crowd of sixteen of the people of Gaddistown went to the Blood mountain. We will not give the names of the parties who went from here. After all at Mr. Dine Davis's spring we made a rush for Mr. Wash Gaddis, at the foot of the Blood where we left our teams. When ready the crowd made its way to the spring on the Blood a foot where we ate our dinners. At this point we made a lot of lemonade which, (after the fair sex had taken a drink) was very nice to the young men of the crew. After this they all made their way on top of the Blood. And gentle reader you don't know how it thrills the very soul of a person to be on the Blood mountain, on the rugged point, and see the smoke rising from several camps and mixing its fog with the transforming air. If you have never been to the Blood you can't imagine the view from the top.

After remaining some 2 hours we went back down to the spring from which place (after making more lemonade) started back to our buggies at Mr. Gaddis. But before reaching our buggies it seemed that the air had been chilled and it lost its moisture, a part of which of course fell on the Blood mountain crew, and if you ever saw people wish their feathers down from rain, theirs were down. But still life was not dead because after having gotten ready and started for home we had one of the completest runaways you ever saw. The buggy ran on two wheels for some distance. But no one was hurt very bad.

THE NUGGET

DAHLONEGA, MAY 9, 1902.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

Admiral Sampson died in Washington city last Tuesday.

Mr. Estill is like a rolling ball of snow. He gathers strength wherever he goes.

The grand jury of Dawson county returned the usual number of true bills last week—14.

If you wish your town to grow speak a good word for it every time an opportunity is offered.

Besides \$200,000 left Mrs. McKinley by her husband congress has voted an appropriation of \$5,000 to her annually.

If Mr. Guerry would make less speeches he would get more votes. That seems to be the universal opinion of the people wherever he goes.

Since the organization of the Guerry club lager beer is shipped here labeled national water, and the boxes by express containing rye and corn liquor are marked glass.

It is said that Dawson county's time to furnish the senatorial timber this time and it is said that both Rev. D. J. Burt and J. B. Thomas have a bee of this kind in their hats. The primary for that county comes off in August.

It was reported that Sam Small would take the stump for Guerry. But he declines. He is a prohibitionist too who got defeated in Fulton county's primary recently for the legislature. Mr. Small has got enough of it.

It is said that in Dawsonville last Wednesday night after court adjourned a crowd got drunk and painted the town red. One man was put in the lockup by the marshal and we are told that the officer was afterwards run out of town.

Gentlemen, matters not who is put out by the independents and how popular he is, stick to the primary. This is a fair way and those wanting office stand a better chance to get one by going in to the primary than on the independent line.

A gentleman remarked to us at Swainsboro last Monday that "Joe Terrell is out of it in Tattal and Emanuel." We ask: "When was he in it?" That seemed to puzzle him, and he went away back and sat down, and we heard him mumbling, "What a truth! What a truth!"—Tattal Journal.

After all Nesbitt's noise, the well informed politicians of North Georgia say that Stevens will carry Cobb county, his opponent's home. Stevens is the choice of the people and Nesbitt's efforts are entirely futile. A man that had one chance and did no better than he did has no business trying again.—Wiregrass Blade.

Mr. G. H. Turner, L. C., and E. K. Gibson arrested Seth Grindle on the lower edge of Shoal Creek district last Monday night on a charge of larceny. Grindle had been stealing fodder from Mr. J. N. Smith and he had a warrant issued for his arrest. If Grindle stays behind the bars, where he is now resting, of the county jail until the fall term of court, he will know something about what it is during the summer.—Cleveland Courier.

Notwithstanding the fact that we have a temperance society in Dahlonega, a city marshal and a U. S. marshal, blockade liquor is sold here nearly every week. And during the recent term of Lumpkin Superior Court when the grand jury was in session having an eye to all such business, numbers of gallons of liquor were sold during the week. Now, if all these officials and the courts can't put the liquor traffic down how is Mr. Guerry going to do it should he be fortunate enough to get to take a seat in that big high chair in Atlanta?

Mining Notes.

Some mining still continues on the Lumpkin property, which shows up very well.

Choctaw Davis and Tom Dineket are doing some prospecting work on the Stow property in the edge of town.

Mr. Maxwell still continues his placer work on the Cook property and we suppose is making money as he would cease work.

Johnson and Riley after prospecting a good deal on the Fish Trap property have found a vein that suits them and are now engaged in taking out ore from the same.

A run of ore from the Horner property was very satisfactory recently and prospecting still continues on this property. Capt. Ingersoll, manager of the property feels very confident that the prospectors will meet with success as the shows already made look well.

The usual amount of work at Crown Mountain continues. The pump is all right, the mine is rich and they are taking out the ore and crushing it as fast as their power will allow, and all interested appear to be well pleased over the results.

The stockholders' meeting of both the Standard and Consolidated Company's convened here last Wednesday but were unable to do any business until some records and books are received causing the meetings to be adjourned over until they can be procured.

A meeting of the stockholders of Crown Mountain Co. took place in Dahlonega last Wednesday and those not here in person were represented by proxy. The president had a good report to make which was listened to with much interest. A fuller report of the meeting will be given next week.

Mr. Packard, of Turkey Hill, is still at work preparing his machinery for the operation of the placer diggings on his property. He has been getting in his boiler this week and will be ready to begin work in a week or ten days he trusts. Then we may hope to hear of good results as his property adjoins the celebrated Calhoun mine and is very rich beyond a doubt.

For some days most of the operations down at the Hand mine have been idle on account of the breaking of the air compressor but last week they moved up one from the Barlow and on Wednesday morning the big whistle let the people for miles around know that things were moving along down at this mine as usual again, and we hope that nothing will occur to stop its progress any more soon.

The Broymann boat, which was purchased from Birch Bros., is still operated successfully in the Chestnut river by Mr. Keenan as manager who looked after it while it was owned by the Birch's. Capt. Ingersoll in the absence of its owner, goes down every Monday morning and brings back a big lot of gold. Had Mr. Broymann changed the crew and put it into new inexperienced hands when he purchased, it this might not have been the case. Very often you will find valuable property idle, made so by changing just for experimental purposes by people who don't know what they are doing.

H. A. Barrows, U. S. census disbursing clerk, is short to the tune of \$7,000. He was discharged without being arrested—too big a sum.

Candidates for all offices subject to the primary must pay their assessment in to the committee soon else their names will be left off the ticket.

Iowa was visited by three different tornadoes last week, injuring twelve persons and damaging property to the amount of \$500. One man was swept through the air like a bird until he lodged in a tree.

The happiest reunion at Dallas, Texas, recently was Col. J. B. Culberson, of Atlanta, and his brother S. F. Culberson, of Portales, New Mexico, who were brought face to face for the first time in 40 years.

There are said to be 13 editors in Georgia who wish to don a legislative cap and are now out in the field making things warm. Should they be chosen these quill drivers will make things lively down about the capital for awhile.

At Forsyth, Ga., in his speech last week Col. Terrell declared Guerry's statements malicious and false, and further stated that Mr. Guerry is a prohibitionist for office only and charges him with voting against local option. Now we will have it.

While Guerry and Terrell are fighting each other Col. Estill is going along quietly gaining many votes. There are hundreds of people opposed to quarreling and fighting and are opposed to putting a man into the gubernatorial chair of this disposition.

Hon. Warner Hill, campaign manager for Hon. J. M. Terrell, reviewed Mr. Guerry's prohibition record in last Sunday's Constitution, and according to the statements made by Mr. Hill Mr. Guerry's record on this line is very thin, hardly showing a prohibition color.

It is believed by many now that Col. Estill will carry Lumpkin county. His recent visit to this county and his manner of electioneering won for him many votes. He had nothing to say about his opponents except that he believed they would make good governors and he thought he would too.

Down in some county in Georgia there were two Guerry men and after Sam Jones went and delivered one of his fiery speeches the other day they changed their minds and will not vote for Mr. Guerry now, so it is said. These men have read the Bible a good deal and are confident that the Lord is not partial enough to make but one man fit for governor in as large a state as Georgia, like Sam would have them believe if he could.

The Mercer men now claim that envelopes in the recent oratorical contest giving marks were opened before the exercises. The fact is Mercer is defeated for the first time and it goes hard with her. She cannot expect to win the prize every time. If so there would be no use of any other college entering the contest. These contests are like fighters. For a long time ballies carry the day and whip their antagonists but eventually they meet up with their match and the scale changes. So it is with Mercer. She has at last met her match and the scale is turned.

Col. Estill favors only needy confederate soldiers drawing pensions now while the state has to borrow money to meet the demands. Isn't he right? Is it just to increase the taxes to the full limit and have to borrow money in order to pension the wealthy as well as the poor? Even the present governor of the state who draws a big salary gets a pension. And hundreds of other wealthy persons in Georgia. Did you ever think about it? We would favor every confederate soldier drawing a pension if his state was in a condition to pay it, but when it comes to having to borrow thousands of dollars every year to meet these demands it is out of reason.

A Card.

To my friends of Lumpkin county: I wish to say that I am no longer a candidate for the office of sheriff, but I do not want you to think that I am ungrateful for I am not. I certainly appreciate the encouragement that I have had from a lot of the best citizens of the county. While many of you thought my success sure I did not think I could do myself justice in this race without resorting to the use of whiskey, and I have said many times that I never would do this again for the sake of any office. So for this and some business reasons I withdraw from the race. Thanking you all for pledging me your support and hoping you will endorse my actions in doing what I thought best I remain,

Yours Respectfully,
J. M. BROOKSHER.

We received an other order for job work from Dawson county this week.

Children's Fertilizer.

That's a good name for Scott's Emulsion. Children are like young plants. Some will grow in ordinary soil. Others need fertilizers.

The nature of some children prevents them from thriving on ordinary food. Such children grow right if treated right.

All they need is a little fertilizer—a little extra richness. Scott's Emulsion is the right treatment.

Fertilizers make things grow. That's just what Scott's Emulsion does. It makes children grow in flesh, grow in strength, grow rich blood, grow in mind, grow happy. That's what we make it for.

G. H. MCGUIRE,
R. M. BRYSON,
W. J. WORLEY,
Commissioners.

CITATION.

GEORGIA—Lumpkin County. To all whom it may concern: B. F. Anderson, county administrator, has in proper form applied to me for permanent Letters of administration on the estate of William M. Wehmut, late of said county, this is to cite all and singular the creditors and next of kin of William Wehmut to be and appear at my office by 10 o'clock a. m. on the 1st Monday in June, 1902, and show cause if any they wish permanent administration should not be granted to B. F. Anderson, county administrator on William M. Wehmut's estate.

Given under my hand and official signature this 5th day of May 1902.
John Huff, Ordinary.

The partial list of candidates spoken of by the independentists to make the race for county offices in Lumpkin county are as follows: For representative, Capt. J. W. Woodward; for sheriff, W. H. Satterfield; for clerk of the superior court, J. A. Howard; for treasurer, W. C. Thomas. Some of these parties have spoke out and say they won't make the race so we understand while the others have not been heard from. Later.—We understand that an effort will be made to get Col. Price to run on the independent ticket.

The republicans meet Saturday and will likely put out a full ticket for county officers, not composed entirely of republicans, but any body they think can defeat those selected by the primary.

Mattie McElreath, Labeled for divorce in vs. John McElreath. Lumpkin Superior Court April Term 1902.

Georgia, Lumpkin County. DAHLONEGA, MAY 9, 1902.

Some more houses to rent. Apply to M. J. Williams.

Several hands left here last week for Tennessee where they go to mine for copper.

Don't forget to go and examine Mrs. Strickland's new millinery goods just received.

J. M. Hutchins and Tillman Satterfield, both of this county, are now in the Indian Territory.

When in Gainesville call on N. N. Littlefield for high grade Guano and Acids at the lowest price.

The worst enemies our gardeners have now are the potato bugs which are here in full force doing much damage.

We understand that the Colored Baptist Association will be held here in August. If it is all lovers of old time vocal music will be able to hear some good singing in Dahlonega once more.

One night last week City Marshal Harbison made a raid on the colored inn near the Imboden house, which is a great place for pleasure seekers of this color. But as he saw no mischief going on made no arrests.

Bob Wadant, the little man who lived in Nimbleshill district and was so badly crippled, died of pneumonia fever one day last week after only a few days illness. He was in town a few days previous apparently enjoying good health.

By a little expenditure of money for advertising our city could be filled with summer visitors. Suppose Col. Farrow didn't advertise his springs in this county? He spends money every year for this purpose and the result is his hotel is crowded every season with guests from all parts of Georgia and many from other states.

Geo. Walker carried Frank Latta Friday afternoon to Gainesville where he met a guard from Jackson county who will see that he is cared for until the 1st of next May, on account of having been convicted here of child desertion during court week. All the rest of the parties sentenced succeeded in settling their fines. There is still another case pending here against Little charging him with cheating and swindling.

A guard carried off the two Beasley boys to the Bartow iron works last Friday, where they go to work out a sentence of twenty years each at hard labor for killing Pierce Grindle in this county a short time ago. The negro Hunter, convicted of cattle stealing, was also carried off for three years. The guard had been to White county where he got another negro for six years, convicted of stealing a horse.

Read the interesting letter of Prof. A. W. Cain on the first page of this issue. He tells all about the uniformity system of text books which has been adopted in Texas, and gives both sides, and shows where this system in the school where he teaches alone saves the patrons from two to three hundred dollars annually. So cast your ballot for Rev. Mr. Beck of Georgia who is a candidate for state school commissioner and favors this system and save the people of Georgia thousands of dollars annually.

This business of reporting stills has gotten to be a dangerous thing and often causes the wrong man to be blamed or punished when he is perfectly innocent. This was the instigation of the trouble and double murder in Lumpkin county which occurred only a few weeks ago no doubt although it never came out in the evidence. The accusers were not guilty but we are told by parties who have a right to know (not any of the revenue officials) that the man who did report the still causing all this trouble and death is in Dahlonega every week and goes unharmed, but he is not worth killing.

Dahlonega needs a vagrant law. Then idle hands could eat no bread unless they earned it.

Soon be time for parties to secure a jug and go across the Blue Ridge in search of mountain trout. Wild strawberries will soon be ripe and then country editors will for awhile be independent—that is if too many don't post their lands.

Business for the sheriff was very dull last Tuesday on account of all the property upon which there were claims being satisfactorily arranged.

There will be but few fish caught this summer with hook and line on account of so many locusts, which will be a great drawback to pleasure seekers in this respect.

The commencement of the N. G. A. College will soon roll round again, but the speakers who go out into the woods to practice can't hear themselves now for the locusts.

We return thanks to the party sending us a free ticket into the great exposition at Charleston which we will use with pleasure if there is any possible chance for us to get off.

All our northern and Kentucky visitors who have been spending several weeks in our beautiful mountain city for the first time seem to be perfectly delighted with the healthy climate and pleasant weather.

Col. Moore returned from Dallas, Texas, last Friday where he had been to attend the great reunion of Confederate veterans. To say that it was a pleasant trip for the Colonel and his wife doesn't explain it.

The new target is now completed and the college boys can shoot without endangering or scaring any body unless they miss the target, shoot over the mountain and the ball drops on the head of some gold prospector on the other side.

Marcus Stone, who resided in Dawson near the line of this and that county, died a few days ago at the age of about 72. He had been to Dahlonega and while on his way home got sick and never recovered any more.

Gentle readers, that is all you who borrow the NUGGET, don't be too stingy to spend a dollar for one of your own which you can read every week without sitting and watching for some subscriber to lay his down and then snatch it like a hawk after a chicken.

E. E. Orisson has recovered from the small pox which is the only case in Dahlonega. Extra precaution by the mayor and city council has prevented this disease from spreading in Dahlonega at both times and much credit is due them for their prompt action in this direction.

Last Tuesday we heard several bells and tin pans rattling. At first we thought it was parties rejoicing over some successful undertaking. But in looking out we were not long in understanding it. It was a negro man's bees swarming who was absent and his wife was out together with every child she had big enough to make a noise trying to settle them. Bell ringing when bees swarm is an old custom of settling them, but this time they over done the thing for the bees became alarmed and went back into their old home for fear of danger.

Amanda Hashaw, col., who goes deranged occasionally, went from home and left her two small children alone last Monday night at this place and last heard of was making her way down the Auraria road some seven miles from Dahlonega, stating when met that she was going to Gainesville. About a year ago she left home and lay out in the woods two days and nights but since that time has been working and apparently getting along all right until leaving last. Occasionally she was seen ironing clothes on Sunday but no one paid any attention to it. Later—Amanda has returned with a restored mind.

The price of tobacco is advancing but this one thing that don't effect us.

Since receiving our new large job press we are prepared to do any size job you want. So if you are needing any thing in this line bring it along.

The members of the Sig Ma Nu fraternity had their annual picnic at Porter Springs last Monday, which as usual was a very enjoyable occasion to all who went up.

We learn that the last grand jury got after some of those idle negroes who have been lying around town making a partial living by selling liquor for some time.

Col. W. P. Price returned from Athens last Friday where he had been to attend an educational conference of northern gentlemen, who wish to distribute a large sum of money in the south for the benefit of the white people in the way of education.

Nearly all kinds of produce is high. What makes it? So many negroes loading around town with an old fiddle, bango or guitar, killing their time away when each could make several hundred bushels of corn in they would go to work.

Although it is a violation of law to rob birds nests great gangs of boys, some big enough to go a courting, are out hunting and robbing their nests, Sunday not excepted. Some of them will visit Sabbath School in the morning and go out searching for bird eggs in the afternoon.

Thomas Christian, an old and highly respected citizen of Auraria district, died at his home at that place on the night of the fourth inst., at the age of 82. He was a good old gentleman and well thought of by all who knew him, and that is every body in this country nearly, as he has been here among us so long.

Since some of the colored Baptists have been brought up before the bar of justice for conduct unbecoming church members at this place we notice that the drinking members now go around the back way with their jugs and bottles of liquor. So these church trials put some of them to inconvenience if no good is accomplished.

When one of the colored fighting members here gets on the war path he is hard to down. The other Sunday evening after services were over one got so mad at the display his wife made on the streets in her new suit that he went at her like a tiger and tore her pretty pink dress into strings and kicked her costly hat like it was a foot ball. There is but little chance of a fellow reaching heaven having a mean and unruly wife.

The jury revisors will meet in August for the purpose of revising the list for Lumpkin county at which time a jury will be drawn to serve at the fall term of court. This is why the Judge didn't draw it at the last term. This was done here once and some of the jurors drawn here were not on the list. As you are aware sometimes we get men as revisors who, after getting all their kin folks in first and "good patrons" forget some of the rest.

The banquet given the N. G. A. College last Friday evening in honor of N. W. Grant's victory of winning the first prize at the state oratorical contest in Atlanta recently was a grand affair. It took place in the large elegant hotel owned by the Consolidated Co. and was attended by more than two hundred people. Col. Charters was the toastmaster of the occasion and several other prominent citizens took a part and made the program complete in every respect. And the ladies in preparing the table left nothing undone on their part, for it was the nicest and largest one ever set in Dahlonega. Everything passed off pleasantly and was an occasion that will long be remembered by all present.

See legal sales elsewhere.

Beef retails when it can be had at 15 cents per pound in Dahlonega.

Irish potatoes retailed at \$1.25 per bushel in Dahlonega last week and went like hot cakes.

Bacon has reached the 13 cents notch here which causes a fellow to have to take a little bite of meat and a big bite of bread.

Don't forget those window and door screens at J. F. Moore's, straw hats, summer shoes and many other things for the season too numerous to mention.

Editing a newspaper while attacked with the pneumonia is an up hill business, for this reason we ask our readers to bear with us for all short comings this week.

The locusts have appeared in full force in this section again for the first time in about seventeen years, furnishing music for the potato bugs while they eat—regular summer resort style.

M. Chester left for Carrollton last Monday to accept the superintendence place in a mine near that city. Mr. Chester is one of our best experienced practical miners and knows how to mine profitably.

A portion of this county was visited by a big hail on Thursday of last week. The stones were about the size of bird eggs but fell thick and fast and could be raked up in piles in some localities. Dahlonega was just in the edge of it.

Preacher Pierce returned from Gainesville a few days ago where he had been assisting in the conduct of a revival at one of the churches at that place. Mr. Pierce is always ready to go anywhere when called to assist in religious work.

Last Saturday while Wm. Tolbert was assisting in unloading an air compressor down at the Hand it caused a piece of scantling to strike him on the head making a painful but not serious wound. He was out the next day all right but a little sore.

Several hands left Dahlonega last Monday for Alabama at the request of J. L. Burns, well known here, who is contracting in Birmingham. Mr. Burns remained in Dahlonega awhile, superintended for the Consolidated Co. in its construction work and was a hustler.

On Saturday evening last Mr. Love, the night watchman down at the Hand, fell on the distributing belt while endeavoring to cross it and was carried some distance until he came into contact with the machinery, the cogs of which broke his right leg before he could extricate himself. He caught hold of something and pulled until the palms of his hands were perfectly red but before getting his foot out the bones were broken and sticking through the skin.

A lady in remitting for the NUGGET writes as follows: You will please find enclosed the cash for your excellent paper for awhile. I want you to put me down as one of your life time subscribers. Would pay the life time subscription if I knew how long I would live but being the case, that I don't I'll just pay along a few years only in advance. As I am just entering into married life, I don't feel like I could succeed without the NUGGET. I think it will bring enjoyment and prosperity to my country home.

Among the distinguished gentlemen who will be present here at the college commencement are Hon. H. P. Bell, of Cumming, Ga., who is to deliver the annual address, and Col. Simmons, of Lawnsville, and Judge Gohar, of Marietta, two of the University trustees, who will come to make a general inspection of the college and its workings. As stated last week Rev. Mr. Quillian, of Gainesville, Ga., will deliver the commencement sermon, and at night Dr. J. C. McLaughlin, of Atlanta, will preach.

Candidates, bunsts and potato bugs are worrying the farmers.

Be sure and trade with our advertisers. They will treat you right.

Our Kentucky visitors after spending several weeks in Dahlonega left for their homes to-day.

Mrs. Evans, mother of Deputy Marshal Grizzle, died at her home down at the Barlow mine last Tuesday night.

Charlie Hope was fined for being too lively the other day. It all amounted to \$9.65. A little extra was added for swearing and a small yell or so.

The other day while Floyd Adams and his sister were down on the creek fishing the girl fell in the deep water, and Floyd jumped in and saved his sisters life.

Some of the badges worn by the old Confederate soldiers at Dallas, Texas, recently during the reunion, were printed at the Nugget office.

In to-days issue you will find the announcement of Thomas M. Ray for sheriff. Tom was born and reared in Lumpkin county and you all know that he will perform his duties well if elected without favor, fear or affection.

The speaker to represent the N. G. A. College in the next state oratorical contest, has not been elected yet. The contest here has taken place and the matter is now in the hands of the judges but they have not yet said who the lucky one will be.

The people it seems are becoming much less interested in the Temperance Union here since Mr. Guerry visited us. Quite likely they think there is too much anger about it if he is a fair sample. On Sunday night when some of the speakers got up to talk some six or eight left the church.

Now that Mercer has selected the same speaker defeated by the N. G. A. College at the recent oratorical contest for next year our college boy chosen will have to get a move on him for Mercer's man knows how where he left the gap down which will give him a big advantage over any new one.

In this issue appears the announcement of J. J. Shed for clerk of the Superior Court. Mr. Shed is a good upright citizen, a clever man and has many friends. He served the people of this county for several years as tax receiver, made a good official and if elected clerk would no doubt fill the office with full satisfaction.

The bond of Rob Long, tried for the murder of Henry Clark at the last term of the Superior Court and a mistrial occurred, has been fixed by Judge Estes at \$1,500. At this writing Long is still in jail here but his relatives are preparing the bond which will likely be completed and the defendant released within the next few days.

It seems that colored Methodist preachers are dreading. A short while before A. G. Wimpy died he proposed to give an old negro who had worked for him for years an acre lot near the colored church so that he could build and have a home the rest of his life. But the old negro with thanks said no. It is "too close to the church. Dem negro preachers would soon eat me out of house and home."

On Tuesday last some one rocked the house of Adde Underwood, col., residing in the lower edge of town whose husband was sent to the chain gang some time ago leaving her and some little children at the mercy of the world. One rook passed through the window and the woman not being able to run out with a two weeks old baby, called Corn Rivers, a neighbor close by and when he came out they threw a rock at him but he came on up in town and got some one to stay with the woman till day. Boys, you are doing wrong. You might kill one of her little children, who has harmed no one. Then you would regret it.

The South Carolina Interstate and West Indian Exposition at Charleston will close on the first day of June and the last opportunity to visit this wonderful exhibition of the resources of our Southland at a low rate will be given our people on Wagoner Day, May 22nd. The round trip rate will be three dollars and fifty cents from Gainesville, tickets will be sold for all trains on May 21st., limited to return May 24th., just listen at this. You may leave Gainesville via the Gainesville Jefferson and Southern Railway at 7 a. m., May 21st., and arrive at Charleston at 7 p. m., same day, returning leave Charleston at 7 a. m., May 24, and arrive in Gainesville for supper and spend four hours in the beautiful city of Augusta. Think it over and go down with us. It is a fine show.

Don't be Gay.

Young men, be as smart as you can, of course; know as much as you can without blowing the packing off your cylinder head. Shed the light of your wisdom abroad in the land, but don't dazzle people with it. Don't be too sorry for your father because he knows so much less than you do.

Of course your clothes fit you much better than father's do him. They cost more too. They are more stylish your mustache is neater than pa's. But mind, young man, the old gentleman gets better wages, and his homely scrawling on the business end of a check will draw more money out of the bank in five minutes than you could with your copper plate signature in six months. Young men are useful. We all like them and couldn't engineer a picnic without them. But they are no novelties, my son; nothing of the kind. The world has been so full of smart young men that their feet struck out at the upper story windows. The world has great need of you, but no greater need for you, young man, than you have of this world. Don't be too fresh, young man, so that you have to be put in an ice box to keep from spoiling. Don't be afraid that you won't be discovered. People all over the world are hunting you. Remember, young man, hard work is the great secret of success. It does not kill. "Fun" kills men. The "good times" the boys have lay them out. If you can't be as useful. Be anything that is honest and useful but never be a loafer.—Selected.

Why Washington's Legs Shine.

One of the points of interest in the financial district is the bronze statue of Washington in the front of the United States subtreasury on Wall street. It is invariably pointed out to visitors, and almost invariably the question is asked:

"Why do they polish only the knees and not the whole statue?" Mentor and guide has to shake his head and admit that he does not know.

It appears that some years ago a peddler with some new kind of polish came to the subtreasury and extolled the virtues of the compound to one of the guards. "Why," he said, "I could even polish up that rusty old statue there in a jiffy."

"Go ahead," said the guard. The agent went to work with a will and in a few minutes had succeeded in taking off the beautiful dull oxidizing from the legs of the statue as far as the knees. Just then Mr. Muhleman, the deputy assistant treasurer, came up to get one, and in less time than it takes to tell it the agent found himself sitting at the foot of the steps, while Mr. Muhleman lectured to the surprised guard in forcible language on the vandalism of indiscriminate polishing.

But not even the variability of the New York climate has been sufficient as yet to restore to the polished parts their old dull beauty.—New York Times.

A country correspondent writing to a bachelor editor asked the following innocent question: "Should an engaged young lady sit in a young man's lap?" To which our bachelor friend is said to have replied as follows: "If it's our girl and our lap, yes! If it's some other fellow's girl and our lap, yes! But if it's our girl and some other fellow's lap, never! never! never!"

SELF EVIDENT TRUTH.

Value of Advertising Needs No Demonstration In This Day.

Twenty-five years ago there were any number of business men to be found who said that advertising does not pay. But these have disappeared utterly from the larger marts of trade. They either failed in business or they died of envy and grief, the former because of the success of their rivals who did advertise to the latter because they realized that their own business was going to the "demolition hownows," as Mr. Mantallini would say. The few that survive are restricted to the small towns, and these are too lazy to wait upon the few customers who enter their place of business. In geometry one finds what are termed axioms which need no demonstration, for the reason that they are self evident truths. It is axiomatic that advertising does pay. This means practical, common sense, business advertising—judicious, wholesome advertising.—National Advertiser.

Boys Who are Not Wanted.

A trade magazine gives a list of the boys who are the first to lose their situations in any well ordered business house. Here are a few of them:

The exquisite young man who parts his hair in the middle and is shocked at the idea of soiling his hands by a little honest work.

The luxurious youth who has twenty-dollars-a-week tastes and habits, and a ten-dollar-a-week salary.

The young man who hasn't sense enough to do anything unless he is ordered to do it, and the young man who is always doing things contrary to orders.

The remarkable youth who invariably knows what a customer wants better than he does himself.

The young man who is ignorant of the use of soap and water and hairbrush and comb and other toilet requisites, and the young man who is so wrapped up in the use of these that he has thought for little else.

The young man who wears flashy jewelry, exhales an odor of musk-wears wide stripes, darning cravats, violet checks, and is generally "horsey."

Needing a cook, one of our citizens went out one day last week on an expedition to hire one. On approaching a colored woman, the inquiry was put if she knew where a good cook could be secured. She replied with much independence: "I guess you will find it a hard matter to get one, as all the old time colored women who learned to cook, are dying out, and we are not raising our daughters to be cooks." This is a literal fact, and it shows the tendency of the colored people not to raise their children to work, but to live on the labor of others. The chain gang will continue to be replenished under such family government.—Marietta Journal.

Wanamaker's Advertising Bill.

John Wanamaker pays over \$1,000 a day for advertising his Philadelphia store. He uses a page a day in five daily newspapers in that city. They are as follows: Press, \$60,000; Ledger, \$60,000; Times, \$50,000; North American, \$75,000; Evening Telegraph, \$50,000.

Education.

In this day of so much talk about education, which seems to turn upon plans for sending children to school, it may be well to pause now and then to consider careers of men who have been really educated—that is, fitted for useful lives. Many of these have had to deal with facts, and not with books. They have been their own teachers, and practical experience has been their school. One of them is described by Col. J. B. Killebrew in this issue of the Southern Farm Magazine. His case typical. Without means for ordinary schooling, he was obliged to get right down to work to save himself from starvation. He was not satisfied, however, merely to make a living, and lost no chance to fit himself for better things. While using his hands he kept his brain at work, and when the chances came he was ready for them. Consequently he was a success.

There is a danger that opportunities in the country for real education may become more limited. So great emphasis is laid upon book learning that the mass of folks are rapidly falling into the habit of regarding book learning as education, when it is nothing of the kind. Education may be well assisted by the use of books under the guidance of competent teachers, but the mistake should not be made of depending entirely upon books. That will, the majority of cases, result in the very opposite of education, which is the training of boys and girls to think and act for themselves in such a way as to lead happy lives and to advance the real interests of their fellows. So it is well for the self-educated man not to be forgotten.—Baltimore Farm Magazine.

Death's Bright Lesson.

All nature teaches us that latent possibilities are realized by seeming death. If the acorn does not die, the oak tree cannot come into being. Only as the seed perishes can the golden harvest enrich the husbandman. Only when the bulb crumbles to dust can the flower lift its beautiful to the smiling sun. Through the chambers of seeming death lies the path to the larger, richer and fuller life. Death is not destruction. It is the realization of the possibilities with which God in love has enriched our lives. The white faces of the flowers tell us that the higher life for which we if the life of perfect purity realized through the reflection of Christ.—Rev. Dr. Polemus H. Swift, Chicago.

The Southern negro can begin to get ready to make his home with his Northern friends, for his day of usefulness will soon be at an end in the South. Parties in Louisiana are using the monkey for hoing and plowing cotton and this fall some Mississippi farmers will use a cotton picking machine that will pick 5 bales a day, with only 4 mules and one hand to operate it. The negro can shoulder his banjo and go North, where everything is bright and promising for him.—Acworth Post.

The inventor of the famous Gatling gun has turned his intensive genius from the field of war into more peaceful paths, and has invented a plow operated by a gasoline motor, which he proposes showing at the world's fair. It is said the plow, which is a gang of discs, can be operated at a cost of \$2 per day and that it will do the work of thirty men and eighty horses.

THE NUGGET.

DAHLONEGA, MAY 16, 1902.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

We are requested to state that the Guerry Club will meet in the court house next Tuesday night.

Men who go out electioneering for Guerry with a bottle in their pockets crying out temperance, won't be able to do the gentleman much good.

If the charges made by Guerry and Terrell against each other are all true neither is fit to belong to the church much less occupying the gubernatorial chair.

The Executive Committee of the republican party of Lumpkin county is requested to meet in Dahlonega May 24th, 1902, to transact such business as may come before it.

B. F. ANDERSON,
Chairman.

The congressional primary for this district comes off at the same time of the state and county primaries. Hon F. C. Tate has no opposition, having made the people an able representative and they are proud of him and willing to let well enough alone.

The democratic committee having charge of the printing of tickets requests us to say that all candidates wishing to run for office subject to the democratic primary must pay their assessments before or by the 15th inst., otherwise their names will be left off of the tickets.

Candidates for county offices who have been attending the appointments of the tax receiver for the last ten or fifteen days, meeting people from every part of the county, inform us that Estill will be sure to carry Lumpkin. This shows that the people of the country have a knowledge of the best man and are going to vote for Col. Estill and not be dictated to by the little band of Guerry workers here in Dahlonega.

The republicans of this county say that they are opposed to primaries as you will see by their actions elsewhere, because a man has to pay an assessment of three or four dollars before he can run for a county office, and that some deserving ones are too poor to do it. This is the cheapest way that a man can make a race. If he has not got money enough to have his tickets printed the printer is not going to furnish them for nothing. Take for instance last year when tickets in this county were \$3.00 per thousand. Two or three thousand were purchased by the committee when if run under the old system each candidate would have had printed 2,000 each and the tickets for them all would have cost from \$60 to \$75.

Last Saturday the town was full of republicans. They met here from all parts of the county and came for the purpose of separating the white sheep from the black. In other words the negro was not in it causing those who had always had equal rights in gatherings of this kind before to look like moth-eaten coats. By discarding the negro it quite likely saved embarrassment to some of them for we understand that one was shot in a certain place recently while stealing and it might have been uncomfortable for him to take his seat had he been elected as a delegate. The meeting took place in the hall over Anderson & Jones' store and no one was there or knew what transpired except men of their way of thinking. They put out no candidates but tell us that they have agreed to support the partial list of county officers that will be placed before the public independently later on. This body was composed of some of the best citizens of the county and because they differ with us politically we do not fall with them. It is their rights and if there was not more than one party things would become too dull.

Tom Sanders' restaurant was raided in Gainesville the other day by the officers and relieved of about nine gallons of corn liquor.

Treasurer Park's statement shows the deficiency of his department to be about \$180,000, which will cause the governor to have to borrow again. The next legislature should cut down the states expenses and adopt a new method by living within its means.

The city of St. Pierre, on the island of Martinique, of 40,000 inhabitants, was absolutely obliterated by volcanic eruptions on the 8th. Only 80 escaped from the rain of fire, mud and ashes. Many ships were destroyed in the harbor including four American vessels. Ashes covered a ship five miles distant.

Loss interest was taken here last Tuesday in memorial services than at any time heretofore. When decoration day is postponed it loses its interest just the same as if you were to try to change Christmas on some other time than the 25th of December. There were no old soldiers present as no announcement had been made of the day in the papers. If the little school children had not been present it would have been a complete failure.

There is a gentleman in Dahlonega who solicited an anti prohibitionists to run for the legislature in this county and at the same time says that he is for Guerry because he (Guerry) is a prohibitionist. How inconsistent. It's like Sam Jones who never had any politics in his life and since he's got to riding Mr. Guerry's corn stalk horse, raised an objection to populists voting in the primary. But let Sam ride on till his horse gives out. He's hurting no one but Guerry.

Sam Jones is "working the rabbit foot" on the voters of Georgia. The people have been paying to hear Sam's rib-roasting, hell-is-it-a-mile-away lectures, and just as he gets them worked up to the proper pitch with his pulpit blackguardism the "evangelist" launches out in a red-hot political speech for Dupont Guerry for governor. Sam always has half an eye out for the filthy lucre, and he does not mind adopting filthy means to secure it.—Tallahassee.

Recently Governor Davis, of Arkansas, visited the north and upon hearing so many expressions in Massachusetts about the poor depressed negro of the south and desiring that they shall have an opportunity to reform a certain portion of the negroes of Arkansas, pardoned one, when he returned home, who had been convicted of assault with intent to kill and sent up for three years, on conditions that he become a citizen of Massachusetts within the next 30 days.

Last week Mr. Guerry jumped on the prison commissioners and intimated that things were being done wrong in their department. The commissioners are composed of the best men of Georgia, to-wit Gen. Clemeth, A. Evans, Hon. J. S. Turner and Hon. Tom Eason, who quickly replied that his charges are maliciously false, and we guess they are for that department has been thoroughly examined by the legislature at each session and found to be run according to law. It is a little strange the Lord only made one pure man and that is Mr. Guerry—in his own estimation.

Mr. Estill is certain to win. Take the mountain counties where it was first believed that he would do nothing scarcely, they will go for him. Besides Lumpkin there is Dawson, White, Rabun, Towns, Union and likely Habersham counties that can be put down in Estill column, and we are told that Hall will come out all right. Then he has 43 counties in South Georgia, with a liberal sprinkle in Middle and North-West Georgia. Really Col. Estill is the only one in the race fit for governor taking for granted that what Mr. Terrell and Mr. Guerry say about each other is true.

Local Chat.

In last weeks issue occurred several errors, both grammatical and typographical. But what will it differ with you or I one hundred years from to day? We had the fever, or it had us, but we have about regained our strength now. The Lord blessed us, the devil missed us and Dr. Wheelchel saved us. The city council at its last meeting condemned the old corn crib on the side walk near John Anderson's blacksmith shop, and the old Judge Rice residence owned by Geo. W. White, of Brooklyn, N. Y. The crib is about to fall down and the White house is so old and decayed that it is unhealthy for occupancy.

Robert Long, who killed Henry Clark in this county more than two years ago and a mistrial occurred at the recent term of Lumpkin Superior Court, made a \$1,500 bond last week and is now enjoying his freedom until next court. Those signing his bond were: J. M. Long, L. M. Long, R. G. Long, Coonwood Long, John Long, Henry Long and W. W. Bryan. These bondsmen reside in Fannin and Gilmer counties.

We were amused at two young ladies the other day who were having their own fun while thinking that no body saw them. They seemed to be trying to see which could run and jump the highest over a rope. The rope looked to be about three feet from the ground and both cleared it. This caused us to reflect. Only a few days previous we saw one in company with a fellow who had to take hold of her arm and assist her up every little step or rise, when really that lady could have taken her escort up by one arm and held him out until he wiggled himself to death. Nevertheless the lady seemed to be so weak and fatigued that she had to almost rest her head against his shoulder. This world is full of deceit.

Undoubtedly the people of Dahlonega have more calls for money than those of any other place on earth. Court week a fellow was around begging for money to pay his boys fine to keep him from being sent to the chain gang. The following week one hundred and fifty or seventy-five dollars were wanted for a banquet and last week they were out again for money to finish paying the "big" preacher—who spent a week here some time ago. Two much money is wanted for various things and we think it is time to come to a halt. If the present pastors here can't answer let the sinners rip till some one else can be secured in their places. Style will not land you into heaven. Go out into the country and you will find less style and more religion, and preaching only once a month, and when they capture a sinner they don't have to hold services two or three times a week for fear that he will go astray, either. Let us all try to serve the Lord better but do it in a more economical way and maybe it will last longer.

Last Friday afternoon two horses came into town pulling a buggy from Dawson county. That buggy contained a pistol, Winchester, John Chatten, Frank Rider and a young lady. Rider seemed to be engineering the turnout and was scolded by anti Guerry knock out drops that he could scarcely hold up his head. It seemed that he had got into trouble with J. T. Miller as he came on through Auraria, and applied to Esquire Worley for a warrant against Mr. Miller. The official seeing his condition told him to call round later. After driving across the square a couple of times and going into the Union Store to purchase cartridges for his gun Marshal Harbinson appeared and carried Frank to the lock up where he remained for a few hours before being released. After Chatten got into the buggy and carried the young lady to her home a few miles away and nothing more occurred to excite the curiosity of our citizens that day. Frank was required to pay \$2 and cost for special services rendered him by the authorities.

Republican Meeting.

DAHLONEGA, GA.,
May 10, 1902.

The republicans of Lumpkin county met. The meeting was called to order by B. F. Anderson who stated the object of the meeting. B. F. Anderson was elected chairman and H. D. Ingersoll secretary. On motion a committee of three was appointed to get up an executive committee for the county. Committee appointed: H. L. Coffey, Joe Ridley, Louis Wells, who presented the following names for consideration:

Auraria: J. F. Bruce, H. C. Hughes.

Cane Creek: H. S. Duckett, Henry Ash.

Chestate: Samuel Jones, A. J. Ash.

Crumbly: Richard Dowdy, Billie Dowdy.

Dahlonega: J. H. Jenkins, H. L. Coffey, A. N. Asbury.

Frogton: T. A. P. Tate, A. W. Caldwell.

Hightower: Joe McDougald, Charlie Perdue.

Jones Creek: Miles Newberry, Jack Turner.

Martin's Ford: A. C. Adams, John Poor.

Mill Creek: T. C. Sain, Ed. Corn.

Nimblewill: Mat Wehuni, Walt Waters, G. W. Cochran.

Porter Springs: Martin Duck-

A strong Terrell man in Dahlonega last Saturday said that he wouldn't be surprised now if Col. Estill was nominated—that he was a good pure man and he didn't care.

Col. Price handed us a card to the effect that he hoped that "no voter will seriously consider the rumor that he would be a candidate for the legislature," upon reflection is not published, even after it is in type, simply because he came hot headed at facts that appeared in the NUGGET about his official acts while mayor and discontinued the NUGGET. We will have more to say about this matter next week, and then if Col. Price is displeased and wishes to reply after reading it himself in the NUGGET he can do so free of charge.

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample. Its agreeable taste will surprise you.

The following resolutions were read and adopted:

As there are a great many people of Lumpkin county that are tired of machine politics we favor an independent ticket.

Therefore, be it resolved, That we favor an independent ticket for county officers and that we pledge ourselves to support any good citizen who is competent to fill the office. That we are opposed to the so called primary because it is controlled by a ring who demands of the candidate who goes in to the primary to put up his cash before his name is put upon the ballot which leaves out many of the poor and worthy men who have not the money to put up, and thereby depriving him of the chance to offer for office and puts the election in the hands of a few who dictate who shall run for offices.

Meeting adjourned.

Mr. McAfee Withdraws.

Ed. Nugget:—

Owing to my present physical condition which renders me unable to canvass the county, I have decided to withdraw from the race for the house of representative, which I know will be a surprise to my many ardent supporters. Thanking them for the very complimentary manner in which they have spoken of me and my race for this responsible honor. Fellow citizens, let me assure you if I can be of any service to any of you in the future all you have to do is to command me.

Your obedient servant,
W. H. McAfee.

Notice.

I desire to state to the public that any reports that may be circulated to the effect that I will not make the race for the legislature through, that I will come out and endorse some one else, and that I was induced to enter this race by some designing parties are all false and made for the purpose of deceiving the public. I desire further to state that I entered this race in good faith and that I shall run it through with all the power that I possess, subject to the primary.

All reports that may be circulated contrary to the above are, and will be, false.

Very Truly,
R. M. BRYAN.

THE NUGGET.

Dahlonega, May 16, 1902.

Prof. J. W. Boyd has been elected city surveyor.

H. B. Crawford went over to Blue Ridge this week on a visit.

A. J. Ash, one of Lumpkin county's best farmers sheared a sheep the other day and got eight pounds and eight ounces of fine wool off of it.

Capt. and Mrs. Ingersoll have the largest and nicest strawberries in town. One picked last week measured five inches round. This is a fine country for strawberries and every body can raise them if they will try.

T. J. Horton, of Winder, Ga., has been selected to represent the N. G. College in the next state oratorical contest. Mr. Horton is a good speaker, a wide awake young man and will make it interesting to his opponents.

Some persons are so easy to get mad that people are afraid to be kind to them. Not long since a fellow presented a woman here with a nice pair of shoes and when her husband found it out it made him mad. How strange.

A wedding occurred out in Davis' district a few days ago, the contracting parties being Miss Agnes Odum, daughter of Mr. Bud Odum, and Mr. Winslow Christian. The ceremony was performed by Rev. J. C. Higgins.

Some of our citizens attended services in the country last Sunday, and felt somewhat relieved by not being called on for money for the first time. Here in Dahlonega you can't attend services of no kind but what the hat or basket is passed around.

We were told last Saturday that the report that several young ladies out in Nimblewill district some time ago had a fight was a false alarm. We are glad to make this correction. We dislike to see or hear of men fighting and when it comes to ladies it is disgusting.

Women should never make remarks about unfortunate females who have stopped aside, more especially when some of them are just as guilty as these poor creatures if the truth was known. You may fly high awhile but truth will come by and by and crop your wings so short that it will suddenly stop your progress and cause a very unpleasant wreck.

We heard of another Keely pup pil tumbling from the ladder the other day. This so called Keely cure is all stuff. If you want to quit drinking liquor and have not got manhood enough about you, get four bottles of Peruna, drink it continuously and by the time you get through with these you will feel quite temperate in mind if not in body—just as good as the Keely and much less expense.

A small thing, but in it is a helpful point to those who want to save money in buying their goods. During the last few months we have sold to people living on the railroad more than \$100 worth of merchandise, almost all of it going to Gainesville, and a good deal of it to drummers. The prices we make to non-residents is just the same we make to you and they realize when they once notice it that the price is very low. Call and examine our goods and prices.

B. R. MEADERS & SONS.

At the last term of the Superior Court of this county the grand jury recommended someone added to the state pension list. This waste of time was referred some time ago by the former state pensioner. The law provides a way for old soldiers to secure pensions and if they are unable to get them through that channel they can't get one. The law provides for grand juries to recommend a pension to be discontinued but none to be added. If it had half the time of the jury would be consumed every term of court in passing upon pension claims and there would be no end to it.

L. K. Demayin, of Ohio, arrived in the city last week to look after his mining interests here.

We understand that W. H. Satterfield will announce for sheriff on the independent ticket soon.

Col. W. P. Price went over to Hall county last Sunday in the Quillian settlement to deliver a Querry speech.

The Pi Caps Alpha fraternity also picniced at Porter Springs last Monday and of course had a pleasant time as usual.

Bring along your job work. We have recently added a new large job press and paper cutter to our job department which enables us to fit you up in good style.

Mrs. Cosick returned to her home in the north a few days ago after spending several months here with her husband, Capt. C. G. Cosick, who is in charge of the military department of the N. G. A. College.

Charlie Kerr is carrying the "billy" while Marshal Herbison goes to the U. S. Court and appears against Dennis Hughes and Bud Gaddis for carrying a pistol in a case transferred from Dawson Superior Court.

Prof. Ansted and several of the students spent last Monday on the sparkling brooks of Fannin county catching mountain trout. The students had never crossed the Blue Ridge before and the view from the top of the high mountain was quite a treat to them.

Mrs. Nix, of White county, who attended the burying of Mrs. Moody at this place last Saturday, is the mother of sixteen living children, all married. Mrs. Nix still enjoys good health and is quite strong for a lady of her age. This lady stayed and waited on Mrs. Moody five days before she died and then rode all the way to Dahlonega to see her friend laid to rest.

Last Saturday a Messrs. Carter and Struckland of Gordon county passed through our city on their home from a trip higher up—we know not where. While here they purchased a couple of large jugs and quired about some moonshine liquor. We do not know, but suppose they intend to form an anti Querry Club in their community or organize a temperance society and wanted to get something for the members to taper off on and prevent any severe shock to their interior machinery by letting it gradually cease moving.

The fourteen year-old boy of Albert Peck of this county had the misfortune to get his leg broke in two places last Saturday by the falling of a tree. The father was cutting a tree down and didn't see his son who was returning from the branch where he had been to get some water, and the boy not knowing that the tree was ready to fall walked right up under it and met with the accident as before stated. Dr. Wheelchel says that he is not able to say whether he will be able to save the boys leg or not.

Mrs. Nancy Moody, well known to most of the people of this section, died at her home in White county on Friday morning last, whose remains were brought to Dahlonega and buried by the side of her two husbands in Mt. Hope cemetery the following day at about noon in the presence of a large concourse of people. Mrs. Moody was the mother of Hon. W. H. Courtney whose father died many years ago. The lady was born in Mississippi in 1827 and came to this country when only thirteen years of age. She first married a Mr. Courtney and after his death wedded Dr. John A. Moody, who was well known to most of you here as being the leading physician of this whole country in his day. The friends of the deceased were numbered by the hundreds and on the day Mrs. Moody was buried a long train of vehicles of various kinds filled with people traveled many miles to pay their last tribute of respect to the one they loved so well.

Baby carriages at J. F. Moores. Yes, and lemons too.

Mr. Breyman, of Toledo, O., arrived here last Monday.

Banker Carter came over from Blue Ridge and spent a few days in Dahlonega this week.

Mr. Swain, the stenographer for this circuit left last Tuesday to spend a short while at his home at Reeves' Station.

You will find the Tripod Paint, the best in the world, at J. E. Moores. Also linseed oil, white paint and paint brushes.

Capt. D. B. Devore, of Fort McPherson, Ga., was here to day inspecting the cadets, the college and its prospects.

C. S. Kellogg and Chas. Petrie, of Watertown, N. Y., passed through Dahlonega this week on their way to Union county, on the hunt of a mica mine we suppose.

We will never spend a nickel any more with the business man who sends away from home to get his job work done that can be executed in his town just as well and as cheap.

Misses Pauline and Katie Wilson, daughters of Prof. W. S. Wilson, of Baltimore, have come to attend the commencement and to spend the summer here with relatives.

Dr. N. F. Howard of Dahlonega, who has totally lost his eyesight in recent years, left for Atlanta last Tuesday where he goes for the purpose of having an operation performed and see if his sight can't be restored partially.

Miss Mollie Allen, a sister of Mrs. Edwards of this place, fell backwards off of Mr. Edwards' porch six or eight feet high while rocking a baby in a chair Monday night, causing her to be unconscious for quite a while.

Where is the man who said that banking business wouldn't pay in Dahlonega? Only a few months ago a private bank was started here by Mr. Carter as an experiment and the business proved a success and was converted into a state bank on the 9th inst.

We understand that Mr. Pierce last Sunday mixed up his sermon with a Querry speech. This will do neither Mr. Querry or the cause of Christ any good. Religion and politics won't mix no more than tar and water, and we never expect to hear a man preach that will try it.

The Colored Odd Fellows of this place made a very attractive appearance last Sunday while marching to the church in full regalia, where Rev. Samuel Goodluck preached the thanksgiving sermon. The people of this color came in for many miles around to see the parade of this secret order.

We understand that the societies have decided not to have any champion debate this commencement. They came near getting into a big row last commencement about the decision, is the cause of this action we suppose. School boys should all get along in harmony and not have any trouble or hard feelings toward each other, but to have these champion debates it cannot be prevented.

The South Carolina Interstate and West Indian Exposition at Charleston will close on the first day of June and the last opportunity to visit this wonderful exhibition of the resources of our Southland at a low rate will be given our people on Wagner Day, May 22nd. The round trip rate will be three dollars and fifty cents from Gainesville, tickets will be sold for all trains on May 21st, limited to return May 24th, just listen to this. You may leave Gainesville via the Gainesville Jefferson and Southern Railway at 7 a. m., May 21st, and arrive at Charleston at 7 p. m., same day, returning leave Charleston at 7 a. m., May 24, and arrive in Gainesville for supper and spend four hours in the beautiful city of Augusta. Think it over and go down with us. It is a fine show.

Mining Notes.

At a meeting in Toledo last week of the stockholders of the Consolidated Co., Mark W. Hopkins, a millionaire of St. Clair, Michigan, was elected president of the company, which action will have to be endorsed by a meeting of the stockholders held at Dahlonega so as to make it legal. Mr. Breyman of Toledo, Ohio, is still president of the Standard Company. It is reported that it is their intention to consolidate the Standard, Consolidated and Syndicate Companies in this county, procure a new charter and go to business right. Then they can take the power owned by one company now and work such places as become necessary and will be of profit on the other property, which looks to us like a good plan and we hope and believe they will make money.

The little five stamp mill of the Cayender's Creek mine commenced operation one day last week, and the plates are showing up nicely, satisfying the owners of this mine that they have a good proposition—bound to be for we learn the vein is so rich that you can pull the rock apart and see big pieces of gold. In other words we are told that it is as rich as any ore ever seen at the Barlow which gives everybody here acquainted with the Barlow some idea of the value of the Cayender's Creek ore. Their crusher works splendidly, crushing the ore so fine that the wind blows it off a considerable distance like chaff. To prevent this they aim to box the crusher up with ceiling before running it any more. Mr. Wild, the general superintendent, has gone to his home in North Carolina but will return in a few days.

At the recent stockholders meeting of the Crown Mountain Co., here C. M. Merrick was elected vice-president and C. H. Doherty a director.

We give a portion of the report of the board of directors at this meeting as follows:

On the south side of the mountain, numerous small veins of rich ores have been opened up, but none of them worked, and they cannot be worked to advantage without an additional plant on that side of the Mountain. While the veins on that side of the Mountain are smaller than those along the crest or on the north side, it is believed by many, as the ore is much richer, that more gold may yet be found on the south side than on the north side of the Mountain. Little was known of this part of the property when the Company was first organized, and it will take considerable development to tell what its real value is.

At ordinary stages of water, the flow is ample for operating the water wheel and generator, and when these are operated under a full head, ample power is offered to operate the entire plant to its full capacity; but, when the water falls below normal stage at the power station, which occurs in dry seasons, the power is insufficient to work the whole plant as finally installed, which, it should be remembered, is considerably larger than at first contemplated.

This is to be regretted, but, at the time this power was selected, no better power was then obtainable. Since then, the Company has been able to obtain a power considerably larger than the Seabolt Power, and which, with the Seabolt Power, will always afford power adequate to any needs of the Company. The original owners of the mining property, and the promoters of the Company, have generously proposed to turn in to the Treasury of the Company, enough stock, at its present market value, to purchase and develop the power known as the "GORGE" Power, placing the title absolutely in the Crown Mountain Company. When this is done, there cannot possibly be any further lack of power.

(1) It was confidentially expected that the plant would be put in to full operation by the beginning

of September last, but the breakage of one piece after another of the machinery of the pump, each time causing a long delay—as nothing could be done without water—made it impossible to operate the plant more than a few days in succession at any one time, until about a month ago, when the defects in the pump were overcome, since which time, there has been no stoppage from this cause, and no more trouble is anticipated.

(2) Besides this trouble with the pump, much more dead work was encountered in reaching the veins, at the level at which it was deemed desirable to open them, that is, as near water level as practicable, than was anticipated; especially was this the case at the Columbia and Preacher cuts. At the Crown Mountain cut, the dead work has all been passed through and the entire belt, which is now being sluiced down, is paying material. Some dead work remains to be done, however, at each of the other cuts, especially in the Preacher, but it will grow less until all dead work is reduced to a minimum.

Putting together the delays caused by breakages of the pump, and the dead work that has been done, the Directors think they are justified in dating the real commencement of operations on the 7th of April, 1902, since which time every thing has been running without interruption, except as has been caused in the last two weeks by a deficiency in the power, as above stated.

While the work of development for reasons stated, has been slower than was expected, the Directors believe that developments so far fully justify them in expressing to the Stockholders the opinion that it will not be long now before their property, though perhaps not of the bonanza kind, will nevertheless, prove a dividend payer, and a good permanent investment, as it certainly will take many years of constant work to exhaust all the ore.

A party of New York gentlemen has organized a mining company under the name of the "Etowah Gold Mining and Milling Co., and has taken possession of what is familiarly known as the Auraria mine, this county, near the town of the same name. They are preparing for immediate development. Will erect a plant with stamps and centrifugal mills suitable for both hydraulic and dry mining. The property made a fine showing in recent prospecting and the company is quite hopeful of bringing into existence a well equipped and profitable mine. This property has been owned for several years by Mr. H. D. Jaquish who is prominently identified with the company and who fills the capacity of general manager, having full control of the management. T. M. Keyser, of New York, who has been associated with Mr. Jaquish for some months past, is President of the company. Mr. Edward Riegelmann, of New York, Secretary, and A. Welles Stump, of New York, Treasurer, with the office of the company at 45 Broadway, New York. These gentlemen have been prospecting on this property for some time. Having made a number of assays all of which gave surprising results. There is already a 20 stamp mill on the property which will be put in good shape. With an abundance of water power, timber and large rich gold bearing veins in the hands of a good business man and practical and economical miner like manager Jaquish it is bound to be a success.

During a rain last Monday lightning entered the transformer house of the Crown Mountain plant at Seabolt shoals and crippled the machinery, causing everything to shut down until the injured parts can be received from the manufacturer, which may take until first of next week.

Some work is to commence on the Standard property now. And more prospecting will be done down about the Hand. The new air compressor was received to-day.

Only Indian Paper Dying.

The Cherokee Advocate, the only newspaper printed for Indians in the Indian language, is soon to be abolished. It has been published at Tahlequah, I. T., for the past fifty years and prior to that time at New Echota, Ga., where it was established in 1830. Lack of funds in the Cherokee treasury was responsible for the discontinuance of this publication, which a few years ago was a powerful medium among the full blood Cherokees. The paper is printed at the expense of the Cherokee government, has its own modern plant, office building, etc. The type was cast in especially molds, and the molds were destroyed. Today its circulation is less than 300, and all of those are dead heads. The editor and compositor are paid by the Cherokee government, but since that is doomed the end is in sight.

Hope of the South.

It is no use to hide the fact that the hope of the South lies in the white boy who is determined to be useful and willing to work hard that he may be, says the Tennessee Mountain Herald.

There are many who are studying Latin and Greek and fitting to be lawyers, doctors and ministers, but there is no great demand for them. There is never ending demand for young men who can do something and superintend common labor, while this labor does what clear brains plan and oversee.

The day has passed when a man with a diploma from some small college can win his way carte blanche. It has been found that there is culture in gardening as well as in Greek, in a lathe as well as in literature, in handling of a plow as well as in the handling of a pen.

This is the way a Missourian confessed at a camp meeting. He was pressed hard to repent and at last got up. "Dear friends," said Bill, "I feel the spirit moving me to talk and tell what a bad man I have been, but I can't do it while the grand jury is in session." "The Lord will forgive you, shouted the preacher." "I guess that's all right," said Bill, "but he ain't on the grand jury."

Wray in Trouble.

Two weeks ago Mr. J. W. Wray was enjoined by Judge Guber from selling intoxicating liquors Ball Ground, Cherokee County, Ga., the Judge holding that Wray's license was illegal and void. Wray went back to Ball Ground, got him up a new license and opened up his bar room again. The good people of the town then made petition to Judge Guber to attach Wray for violating the Court's injunction, and this was heard in Marietta on Monday last. Judge Guber held that Wray was in contempt of court for selling liquors without first getting the injunction dissolved, and fined him \$200.00 and sentenced him to twenty days in Canton jail. "The way of the transgressor is hard," Col. D. W. Blair represented the petitioners and Hon. N. A. Morris represented Mr. Wray. —Marietta Journal.

Success Follows Advertising.

There is a common saying that the man who advertises never is sold out by the auctioneer. This scarcely is true, but it is true that the careful man of business who advertises judiciously does not fail in business, has no receiver appointed to close out his affairs and has no occasion for the services of the auctioneer.—National Advertiser.

Statistical returns for the past year show that churches all over this country made little or no progress. And it is no wonder either. So long as they try to compete with the world in its offering movement, money with higher criticism, spend their time in drumming up church fairs, suppers and bazaar sales, they may expect to lose out. Better stick to the teachings of Christ and let the side shows alone.—Journal, Rocks port, Ind.

Jasper County News: On account of the scarcity of flowers and the absence of the veterans' decoration day has been postponed in Covington until May the 15th. It seems to us that a wreath of laurel or cypress on the 20th of April would be more appropriate than a bunch of roses on any other day. For the observation of a memorial day for the Confederate soldier. As well postpone to observance of Christmas day for lack of cake for dinner!—Macon News.

Seventy Years Ago.

William Gore Ouseley, Esq., attaches to the British Legation at Washington in 1832 published a volume of conclusions and observations resulting from his temporary residence in the United States. "The Penny Magazine," a weekly paper published every Saturday, at 50 Sincola's Inn; Fields in its issue of June 30, 1832, copies the following passage from his book, pp 151-153 relating to the gold mines which had just been opened in some of the Southern States of the Union.

"These mines have not been worked to any considerable extent for more than about five or six years, or perhaps much less. And yet many of them are worked upon an extensive scale, and mills for grinding the ore, propelled by water or by steam, are erected in vast numbers. The company of Messrs Bissels, which is one of the most considerable, employs about six hundred hands. The whole number of men now employed at the mines in these Southern States is at least twenty thousand. The weekly value of these mines is estimated at one hundred thousand dollars, or more than one million pounds sterling annually. But a small part of the gold is sent to the United States Mint. By far the larger part is sent to Europe, particularly to Paris. Of the working miners the greater number are foreigners—Germans, Swiss, Swedes, Spaniards, English, Welch, Scotch, &c. There are no less than thirteen different languages spoken at the mines in North Carolina, and men are flocking to the mines from all parts and find ready employment. Hundreds of land-owners and renters work the mines on their grounds on a small scale, not being able to encounter the expense of much machinery. The state of morals among the miners or laborers is represented to be deplorably bad. This may be attributed to the absence of any general organization as yet for police and regulation of the mines. Combined with the usual effects of gold upon the uneducated and needy classes of men (often not the most favorable specimens of their various nations) who generally seek employment in the gold districts. The village of Charlotte, in Mecklenburg county, North Carolina is in the immediate vicinity of several of the largest mines. It is increasing rapidly.

One interesting fact deserves mention, when speaking of the gold mines, there are indubitable evidence that these mines were known and worked by the aboriginal inhabitants, the American Indians, or by some other people, at a remote period. Many pieces of machinery which were used for this purpose have been found. Among them are several crucibles of earthenware, and for better than those now in use. Messrs Bissels have tried three of them, and found that they lasted twice or three times as long as even the best Tessian crucibles, which are now the best made. The gold mines commence in Virginia, and extend South West through North Carolina, part of South Carolina, Georgia and end in Tennessee. The chief mines at present are those of North Carolina and Georgia. These gold mines prove that the whole region in which they abound, was once under the powerful action of fire. And it is a fact, that the miners who have come from the mines in South America and in Europe, pronounce this region to be more abundant in gold than any other that has been found on the globe. There is no telling the extent of these mines but sufficient is known to prove they are of vast extent."

He Can't Vote For Glenn.

A teacher in a letter in reference to the state school commissioner published in the Blairsville Herald gives several reasons why he can't vote for Mr. Glenn, one of them being the following:

"He eulogized Booker T. Washington, a negro, at a banquet given in Washington's honor. I think that any white man who has the audacity to engage in any such stuff as that ought not to be recognized by a band of white teachers. If anything on earth makes the blood in my veins almost stop in its course, it is the idea of "social equality." God forbid that any man who has Caucasian blood in his veins will ever be guilty of that any more. You can hardly pick up a newspaper but what you find therein an account of some brute assaulting, or attempting to assault some white woman. Let Glenn eulogize Booker Washington as much as he pleases, and let the President dine with him whenever he sees fit, but neither of them will never receive my support."

Papers and Papers.

The masses know but little of the struggles of the local or county papers. They appear every week and the locals are hastily read, often the paper is thrown aside, with the remark that there is nothing in it. Too often this is true, and true because the struggling editor has not had the help and encouragement that his enterprise deserves. So few are willing to furnish items of news and give material help by subscribing and for advertising in its columns. Many a village has grown into a town and many a town into a city thro' the influence of the local paper. It has brought wealth and prominence to many, while it has remained in poverty. Many would feel ashamed to live in a town or county where there is no local paper, and yet they fail support to the only one they have.

What is true with the local paper is true with the religious. Its struggles are unknown and its worth is not fully appreciated. Denominations have been brought from obscurity into prominence by their papers. Many who are unwilling to subscribe and pay for their denominational paper would feel humiliated if their denomination did not have one. Just as the secular paper is an indispensable factor in the material development of any community, so the denominational one is an absolute necessity in denominational growth. It is nothing short of a suicidal policy to ignore the claims of the secular and denominational papers.—Christian Index.

Col. C. D. Phillips Asks Some Questions.

All of you here know Col. C. D. Phillips, of Marietta, Ga. Don't you? Well, in a lengthy letter concerning candidate Guerry, he says: "In justice to the people Mr. Guerry ought to formulate his platform in which he ought to say when, how imported and in what quantity imported. Does he mean that wine should not be manufactured in the State and the farmer should not sell or vend his own vintage? Does he mean to say that the apothecary and druggist shall be prohibited from the manufacture of tinctures or will he allow the importation of tinctures, the basis of which is alcohol? But above all does he countenance the abuse of our Judges indulged by his followers and advocates? and does he agree with them that these Judges are "Red Nosed Tubs" and instruments of the whiskey rings? If so would he be willing to be sworn into office by one of these Tubs, and will he be content to abide by and execute the law as decided by these aforesaid Tubs, or will by resolves be the Supreme law of the state?"

Uniformity of Text Books.

The uniform system of text books for the public schools of the state has some very strong advocates. Amongst them we are pleased to find the Augusta Chronicle, which claims that a state enactment making it compulsory that all text books shall be uniform, (1) will reduce the price of books, (2) prevent periodical and frequent changes, (3) save money to those who move their children are yet of school age, (4) that it will insure similarity of study and instruction and thereby admit of a fixed and common system of grading and classification, and that (5) the books will all then be selected by competent judges.—Times-Recorder.

Some Women.

It is a common sight in London to see scores of women, many of them with babies in their arms, standing at public bars drinking gin. If the women were taken from behind the bars, the women would not stand in front of them. This is the proposition which the British reformer does not seem to have acted upon.

In France one wonders where the men are, as the women appear to be doing all the work. It is much the same in Germany. In the city of Munich I recently saw women mending the streets, adjusting the rails of the tram way and handling the heaviest tools of the trade. I saw no men at this work. Those who were not walking about in military uniforms were manly driving cabs.

The reflection upon this sort of differences, in national points of view tends to a certain inward satisfaction in the American breast, and perhaps the natural gratification which feels upon regaining native shores is mingled with a touch of that pride which needs to be regulated but not necessarily suppressed.—William Howard Francis in Lippincott's.

A Kansas law held that an express agent could not deliver a C. O. D. package containing liquor, as that amounted to a sale and was illegal in the state. The supreme court has reversed the decision on the ground that the privilege of such delivery cannot be taken away from the express company.

THE NUGGET.

DAHLONEGA, MAY 23, 1902.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Official Organ of both City and County.

T. H. Baber has purchased the Ellijay Courier and is now its editor and proprietor.

The battle between Guerry and Terrell is causing many to desert their ranks and join the Estill army.

State School Commissioner Glenn is a failure and the people of Georgia should dispense with his services. June the 5th is the day to do it.—Fitzgerald Enters prize.

Clarksville Advertiser: Mr. Guerry is "dead agin" the rail roads, but people of Georgia can do better without Guerry than without the railroads. We are emphatically opposed to a return to the days of the stage coach.

We hope that no one will become offended at what we say politically. It is said that every thing is fair in politics. If it isn't and you can't help getting mad we hope you will recover before it becomes deep seated, for when a person has a severe case of politics it lasts longer than a spell of small pox.

Mr. Guerry is as ill as an old setting hen, or a lady with twin babies—too much so to be elected governor. He has jumped on to every thing and every body from the legislature down to the balliffs and it is their time next. It's a good thing that he is not a liquor drinker. If he was he would have a fight every day and set the woods a-fire going and coming.

Guerry missed it when he attacked the prison commission. It is composed of men of much influence and he will be made to feel it. The Atlanta Journal in referring to the matter last week says: Gen. Evans, one of its members, was a strong friend of Mr. Guerry, but it is reported that he will no longer support him in the race for governor. Regarding this General Evans declined to talk. It is reported, says the Journal, that the friends of Judge Turner in Putnam county and in other counties in Georgia would withdraw their support from Mr. Guerry on account of his charges against the prison commission.

For fear that some one may think that we may have mistreated Col. Price last week by not publishing his card we will explain more fully. It commenced this way: "Ed. Nugget. I hope that no voter in Lumpkin county will seriously consider the rumor that I will be a candidate for the legislature, which rumor, I understand was mentioned in your paper of last week. So far as I have any knowledge, the voters of this county have not expressed any preference for me in that direction," etc. So we decided where persons couldn't afford to read the Nugget and have to depend upon hearsay, we would not publish any free notices unless some attack is made on them.

We had about decided to ventiliate the little Guerry club that has been organized here but as it is making but little progress and doing no harm we will say but little. It is but few in number, composed of what be office seekers, four preachers, several who can take a bigger drink of liquor than ye editor eye'd, one republican and a few other good, kind hearted, clever persons. What is the object of this club? To send out into the country instructors to tell you how to vote. Gentlemen, you who are 21 years of age most certainly know how to cast your balls, without being dictated to by any of this crowd. Suppose you people of the country were to organize a club and send men to town to instruct us here how to vote? You would be laughed at and criticised, wouldn't you?

Remember candidates, that your assessment must be paid to the committee by the 25th inst.

Mr. Guerry has attacked the legislature and all the officials of the state except the balliffs. Their time next.

Armour & Co's lard refinery in Chicago last week was destroyed by fire. Several persons being seriously injured. Loss estimated at from \$750,000 to \$900,000.

The Small pox at Blue Ridge commenced with the mayor and has gone on through the population of that place until it has reached the editor of the Post.

In the list of the republican executive committee last week we got the names of Newberry and Berry mixed up. It should have been and we meant to say Miles Berry.

Prohibition in Kansas was 21 years old on the first day of the current month. Having "come of age," it is old enough to prohibit. There are more than 3,000 federal liquor licenses in Kansas, or about twice as many as there are in Georgia, notwithstanding the population of Georgia is far greater. That is a pretty good illustration of the relative temperance value of prohibition and local option.—Wiregrass Blade.

Those preachers who have partially converted the pulp into a political stand wishing to accomplish something in the way of prohibition, can do it much easier by giving their drinking members special attention in a church trial than by any effort they may make through a Guerry Club. And that is by turning them out when they get drunk and quit being so easy and lenient with them because they are prominent in society or are good liberal members when the hat is passed around. This is the place to get in prohibition work.

Rev. Samuel Jones has been splitting his ribs for Guerry with all who are fool enough to pay fifty cents to sit under the sound of his rasping voice and rag-time oratory for two hours at a time; but from present indications it seems that he has not only busted his slats, but slit his pants also, as a great majority of the people are thoroughly disgusted with his harangues. Verily, Sam's day of usefulness is past, and the sooner he goes into his hole and pulls it after him the better it will be for the people and his posterity.—Wiregrass Blade.

The indications are that the Georgia teachers will have to wait until June 15 for their pay, or part of it, at least. State School Commissioner Glenn has made requests for \$240,000 with which to pay them for their second month's service this year. Treasurer Park says he has only \$175,000 in the treasury to the credit of the school fund, and cannot pay more than that at this time. Gov. Candler says he will not borrow the money until June 15, so that the state will not have more than six months interest to pay. It will probably be a month, therefore, before the teachers' checks are issued.

A correspondent truthfully speaks of Col. Estill as follows: "When the South seceded and troops were called for John H. Estill did not wait for a commission but shouldered his gun and went to the front to fight for home and right. All through the war he fought valiantly as a private, enduring the hardships and the privations of a common soldier without a murmur. After the war he returned to his home, began work and has made a success in life. That he would make a most excellent governor no one can now deny; that his high character fits him for the duties of the chief executive; that he has done more than any other man to build up south Georgia is a proven fact. Then let's rally to his support and give him a handsome majority in this county. The old soldiers of Laurens county are for him almost to a man."

Don't buy and drink blockade liquor and cry out for "Prohibition" Guerry.

Don't make any Guerry prohibition speeches while your blood is warm with liquor.

A cyclone swept through Goliad, Texas, last Sunday killing ninety persons and wounding over a hundred.

The locusts in this section are injuring the fruit trees by spitting the limbs in which they lay their eggs.

Col. Griner, of Laurens county has decided not to enter the race for attorney general, leaving Judge J. C. Hart alone in the field for that office.

Some of the preachers complain about not having a larger attendance at church. People hear politics discussed enough without going to church to hear it.

Hon. G. D. Bruce is an early gardener as well as a fast politician. He enjoyed a mess of new Irish potatoes last Sunday, the earliest we have heard of in this section.

One of Mr. Terrell's friends remarked the other day that he had been running the state for Governor Candler. Maybe he has. If so he is a mighty poor financier.

No doubt when Mr. Guerry came to Dahlonega, spent an hour or so with certain men while not acting like a volcano in the court house, he felt satisfied that they would fix the county for him.

It is said that one man in this county who is interested in an illicit distillery claims to be for Guerry. Come out from this little shield. The revenue officers will find it out after awhile.

The uniform system of school books cannot become a law unless the legislature works for it, and it is very important for the voters of Lumpkin county to know how the candidates for this office stand up on the question, so that they may know to vote.

The old veteran, Col. J. H. Estill, is gaining ground with each passing day, and the indications are that his chances of winning the race are the best of either of the candidates. The towns make a big fuss for Terrell, but the country people want the old war horse.—Sylvania Telephone.

J. R. Tankesly, the mail contractor who lets out many routes in this section, was charged with cheating and swindling in Gilmer Superior Court this week about a mail route but the grand jury said that he was being prosecuted through malice and made a return of no bill. Mr. Tankesly knows too much about business to be guilty of a thing of this kind.

We haven't seen but one Terrell button here and it looked like the Lone Fisherman. We don't believe we have seen a single one of Mr. Guerry's. Yes, we have too, where it had been dropped before a rain. It was made of pasteboard all puffed up like an empty locust shell, perfectly empty—a fair representation of Mr. Guerry after delivering that speech of his.

At Coal Creek, Tenn., last Monday an explosion occurred in a mine killing 225 persons, only one escaped and he is so badly injured that he is not expected to live. A number of persons from Lumpkin county are at work in Tennessee and it may be that some of them are among the dead. In the partial list of the dead published we notice the names of John and Jim White, but cannot say whether they are the Whites from this county or not.

There are a few around here for Glenn for state school commissioner. They favor a man who wants every county to have different school books, and that is Glenn. One of these Glenn supporters received one hundred and twenty-five dollars some time ago for working for the adoption of a certain book by the school board here. And if Glenn is elected this change of books will continue and this man may stand a chance of making more money.

Atlanta had one of the worst riots last Saturday ever occurring in the history of the city, resulting in the death of seven persons, to-wit: Policemen T. S. Grant, H. J. Ozburn, W. A. Wright and Edward Crabtree, an assistant, and three negroes: Will Richardson, Milton Crisby and Shepherd Frazier, caused by the negroes waylaying and beat S. A. Kerlin, an ex-policeman almost to death, then they took refuge in a house beyond the city limits called Pittsburg and when the policemen attempted to arrest them were shot down like dogs. The leader was Will Richardson, who shot until the house was burned down over him, and his body was practically cremated. Then what remained of him was shot full of holes. One of the captured negroes was made to touch the torch to the house which held him. The governor ordered out the troops with a gatling gun to quiet the angry mob. In the house occupied by the negroes five Winchesters, a shot gun and a small gatling gun were found. Over a thousand shots were fired before the trouble ended with the desperado and his companions.

Now that Mr. Beck is out of the race for state school commissioner for Mr. Merrett. He favors a uniform system of school books in Georgia. It is to your interest and largely so to have such a man elected. We have had enough of Mr. Glenn.

The South Carolina Interstate and West Indian Exposition at Charleston will close on the first day of June and the last opportunity to visit this wonderful exhibition of the resources of our Southland at a low rate will be given our people on Wagener Day, May 22nd. The round trip rate will be three dollars and fifty cents from Gainesville, tickets will be sold for all trains on May 21st, limited to return May 24th, just listen at this. You may leave Gainesville via the Gainesville Jefferson and Southern Railway at 7 a. m., May 21st., and arrive at Charleston at 7 p. m., same day, returning leave Charleston at 7 a. m., May 24, and arrive in Gainesville for supper and spend four hours in the beautiful city of Augusta. Think it over and go down with us. It is a fine show.

SCOTT'S EMULSION

is a food medicine for the baby that is thin and not well nourished and for the mother whose milk does not nourish the baby. It is equally good for the boy or girl who is thin and pale and not well nourished by their food; also for the anemic or consumptive adult that is losing flesh and strength. In fact, for all conditions of wasting, it is the food medicine that will nourish and build up the body and give new life and energy when all other means fail. Should be taken in summer as well as winter. SCOTT & BOWNE, Chemists, New York.

Rev. A. J. Beck is out of the race for state school commissioner and is throwing his influence to Mr. Merrett. There were two many in the field favoring the uniformity of text books, which would have given Mr. Glenn the advantage. Mr. Beck would have carried Lumpkin county, but as he is out of the race now we are for the next best man which is Mr. Merrett.

Encouraging news reaches us every day about Col. Estill's increasing strength. Not only in Lumpkin county but all over Georgia, and it is nothing new to hear the few supporters of the others say that they "wouldn't" be surprised if Col. Estill is elected Governor."

Col. Price, who it is said will run for the legislature if Mr. Bryson is defeated in the primary, and Prof. Colvin, a republican, are two of the official members of the Guerry Club here in Dahlonega, who are making a political map and saying who the democrats should support in the coming primary for governor. Both are real nice clever men but have caught the wrong sow by the ear this time.

Guerry and Terrell started out with a large band wagon when entering the race for governor, but their passengers are so few now that a common one horse cart will carry them.

THE NUGGET.

DAHLONEGA, MAY 23, 1902.

Postmaster Tate attended Gilmer Superior Court this week.

Col. Lilly spent several days at Ellijay this week attending court.

Mr. and Mrs. Mary Marlow recently paid relatives in Ducktown a visit.

Doyle Moore, after being in Atlanta for a few months has arrived and is with the old folks at home again.

Uncle Allen Myers came to the front last Wednesday with the first mess of peas we have heard of here this season.

Miss Flossie Weaver, daughter of Mrs. John W. Weaver, dropped dead in the road last Wednesday near her home three miles from Dahlonega.

Have you registered? The book closes the 23rd inst. More than a thousand have already registered but there are yet some who have neglected it.

The Alpharetta brass band has been engaged to play here for the commencement exercises. This is said to be a splendid band and all those fond of music should come out.

We understand that J. F. Castleberry, of this place, has leased a hotel at Clarkesville, Ga., which he will take charge of the first of June. His son Paul will still continue the hotel business at Dahlonega.

Last Tuesday Marshal Grizzle and Collector Richardson visited the illicit distillery of Dock Gooch, in Dawson county, but before they reached it some official from Ellijay had got ahead of them and destroyed it.

Up to nine o'clock last Tuesday night only five members of the Quarry Club were present at the meeting advertised to take place; and they were out on the piazza of the court house where it was cool.

Mr. Huntley, of Jacksonville, Ill., after spending several weeks in Dahlonega returned to his home last Saturday. The gentleman formed a number of acquaintances while here, all of whom liked him and we trust that he will visit us again in the near future and remain longer.

Last Sunday a big young woman was discovered in an old building about a mile from town. It seems that she had gone out for a little recreation and rest as she was lying asleep on the floor perfectly drunk with a sack of candy on one side of her and a bottle of liquor on the other, and it can't be doubted but what she was having pleasant dreams. She was all alone. Santa Clause had come and gone.

It is with deep regret that the Nugget announces the serious illness of Mrs. R. C. Thomson, of our city. Mrs. Thomson has been ailing for some time, but did not come down to her bed until last Sunday. Her condition remained at a stand still until Tuesday when she was taken with a violent attack of kidney trouble and for a time her life was despaired of. She is at present very weak, but with hopes that her vigorous constitution will pull her through. Under the good care of Dr. Welchel, she will undoubtedly soon be on the high way to recovery.

Lola Carroll and Ida Stevens, two colored damsels, were before Mayor Baker last Tuesday charged with disorderly conduct, which occurred on "Pea Ridge" the Sabbath previous. Such disgraceful language as they used in this quarrel was never heard to fall from the lips of persons before, being of such a nature that the chamber was cleared of all boys. Ida's tongue seemed to be the longest and limberest who was fined \$10 and cost or 40 days on the streets, and Lola was requested to hand over \$5 and cost or dig and shovel dirt 25 days. They fell out about their sweethearts, and this is the result of their love. Both paid their fines.

The old Besser house, formerly occupied as a drug store, has been repainted and painted up until it presents a more attractive appearance, in which a restaurant will be opened out.

The candidates are meeting the voters face to face at the country precincts where they go to return their taxes to the receiver. And in some places they all or a big majority, sit down around a jug and drink together in upity and harmony.

The other day a certain married lady in town got mad and threw some butter and syrup which her husband had purchased, out into the yard, who not having the patience of Job quit her and left out. But we have no idea that Job had such a wife as this.

Another new lot of cards and stationery received this week. So if you need any kind of job work done drop in and see us. We have just added a large job press and paper cutter to this department enabling us to fit you up in style and upon short notice.

A number of the young people attended meeting last Sunday over at Yellow Creek in Hall county. Services were held here but it was not as pleasant as taking that long drive and occasionally whispering words of love into each others ears.

Yes chickens are scarcer in Dahlonega than ever before, causing some one Saturday night to steal one off of Goley Townsend's stove while it was cooking and run off with it—pot and all. His wife followed and got the vessel but the fellow kept on running up the Mahew road gnawing the bones until he was out of sight.

A big crowd attended services up at Yahoola church a few miles from town last Sunday, together with a number of candidates but we are told that the behavior was good and no sign of liquor could be seen upon any one. So Yahoola is ahead of Yellow Creek in this respect for the first time in years and we are glad to make the announcement.

This little item is sent us from Nimblewill district: During the big May meeting here the second Sunday every thing passed off pleasant and quietly. Not a drop of liquor could be smelt on any ones breath. Two hack loads came over from Cane Creek. Boys must be scarce there as we noticed that one young lady had to ride with a married man. We will have to send some of our Nimblewill boys over, for we think it would be very acceptable with the girls.

Dahlonega had another street show last Friday afternoon with the addition of a clown this time, all free of charge. The principal actor being Mr. Pannel who got a little two full of intoxicants of some kind to make it very interesting. In this condition he appeared in front of the hotel and had two dogs to fight. Afterwards he commenced cursing most every one he met, which continued until he reached Fete Carter. There it came to a sudden close by Pannels head colliding with Carters fist, causing the latter to strike the floor and his heels fly up like a showman in the act of turning a barrel or bell with his feet. Marshal Harrison being absent he was put into Hall's Villa instead of the calaboose, and the curtain fell.

During the night Mr. Pannel got hold of a pistol and became blood thirsty but Mr. Thomson hired some one to carry him back to his room and stay with him where he would not be in danger of hurting himself. Next morning bright and early Mr. Pannel left out without paying his "show tax."

This party is well known here and is nice and genteel when clear of intoxicants but like most every body else when being too full of liquor—a fool. Last summer while bossing at the mines here the boys called him "Cap'n Pannel," but Carter knocked both the head and tail end attachments off and when he departed it was just Jim Pannel.

Chickens and eggs are scarce and find a ready sale in Dahlonega now at a good price.

John Bennett and several of his friends are taking in the Charleston exposition this week.

John Bennett, of Wier, Ga., has purchased property at Belmont, Ga., where he expects to go soon and continue in the mercantile business.

Hon. W. H. McAfie left for Atlanta last Sunday where he goes to take a little recreation and rest. He is in bad health and we trust a change will help him.

We are indebted to Mrs. H. D. Ingersoll for a half gallon box of nice strawberries sent us Friday—the largest and finest we have ever seen raised in Dahlonega.

Last Sunday was childrens day at the Methodist church and the building was full of these little folks to hear the appropriate services held in their behalf.

Since the Temperance Union has been converted into a Quarry Club and the pulpit into a political rostrum we are not publishing any programs free of charge now.

Dr. H. Palmour, of Dougherty, Ga., wishes to state to the people of Dahlonega and vicinity that he will be here on the first week of June to do all kinds of dental work.

Well, J. F. Sargent has been employed by General Warner to build the power plant on the Chattahoochee river for the Gainesville and Dahlonega railroad, which will begin at once. This begins to look like business.

A joint committee of the three college societies here decided to order badges for the commencement from a party in South Carolina. This is like some states having plenty of granite sending off to other states for similar material to build capitols with.

Through the kindness of J. W. Deacon, of Mt. Holy, N. J., we were sent the article on the first page of "Seventy Years Ago," which he came across in a book written by an Englishman in 1832, giving his views of the gold mines of the Southern States, which will be found very interesting.

Dayid Lance, who left this county for Arkansas sixteen years ago, is back on a visit for the first time since he departed. Many changes have taken place since he left—many persons who were children then are now grown with families while others are at rest in the city of the dead.

By reference to our advertising columns you will see the ad. of M. J. Williams who is doing business at the stand known as the old John Simmons building. He keeps a general line of merchandise, is clever and accommodating, who will make it to your interest to trade with him. Give him a trial.

That white negro woman who was here some months ago, is giving trouble now at Anderson, S. C. She carries her certificate to the effect that she is a negro like she did here but it doesn't seem to give satisfaction, which caused a citizen of that place to write a letter of enquiry here last week to Esquire W. J. Worley.

The "big" Baptist preacher who recently visited Dahlonega was paid \$40 for his services—\$7 per day, and if there was a single soul converted during the meeting he held we never learned of it. Such liberality as this is another cause of money being scarce here and plenty at the places where such ministers reside.

While several of the assistants of the revenue officers were up before Judge Newman last week charged with carrying concealed pistols, being prosecuted by some of their enemies, the Judge informed them that the Supreme Court of the United States had decided that either U. S. officials or assistants could carry pistols in any manner they saw proper.

Ministers can accomplish but little good until after the election.

The commencement of the N. G. A. College begins next Sunday week.

The farmers tell us that the hogs in the country are perfectly fat on locusts.

There will be eleven graduates at this commencement of the N. G. A. College. That is if all pass the examination correctly.

There was a good deal of drinking Saturday night here but everything passed off quietly without any trouble. It must have been a good article.

The locusts commence hallowing now before four o'clock in the morning and continue until four in the afternoon, getting in full twelve hours.

The trustees met last Monday and decided to have electric lights put in the college by commencement, and do away with the old kerosene lamps.

The Cane Creek falls are already attracting the attention of those who love to swim and play in the water. The water is cool but some can't wait any longer.

W. P. Price, Jr., G. Granger, James Tate, Bruce Crawford and Mrs. H. D. Gurley, are attending the great exposition at Charleston this week, having left last Tuesday.

The feeding of the two jurors trying the murder cases last court cost the county 60 cents a meal each and 25 cents for a bed—over \$40. Cheaper arrangements will be made for the next term of court.

Collector Richardson and Marshal Grizzle destroyed two illicit distilleries in this county this week, being Geo. Corns and Bill Berries, and arrested John Lingferelt who was interesting himself in the latter.

The Quarry temperance club met in the court house last Tuesday evening. This Club is losing its grip. We know of parties who joined it at the beginning simply to get all the grips, signs and pass words and have never attended but one time.

Henry Ash, who was put on the republican executive committee to represent Cane Creek, requests us to say that it was done without his knowledge or consent, and that he aims to vote in the democratic primary and have nothing to do with the other.

Last Saturday night while Samp Mote, of this county was sitting by the fire he saw a rattle snake's pilot come crawling out from one corner of the house. Mr. Mote got the axe and just as he made a lick it coiled itself and he cut it in two, killing it and eight young snakes all at one lick.

One hundred or more Estill buttons were received here last Saturday and they went like hot cakes at an old time muster when every body nearly was hungry. If every county in Georgia is like Lumpkin they can't make enough buttons between now and the election to supply the demand.

We noticed last Monday morning some empty Peruna and lemon extract bottles in and about the court house where some of the boys had been quenching their thirst with it as a substitute for liquor. Only last week we noticed where a fellow had vomited up in the court room in front of the Judges stand. So it seems that Quarry's club has no effect in stopping this, or does it allow them to drink Peruna and lemon extract?

Several fellows lit over into Capt. Ingersoll's garden last Sunday night and were making their way to his strawberry bed when discovered. They got out faster than they went in. This is wrong. If any body is wanting strawberries right bad they can get them from Captain or Mrs. Ingersoll by asking for them. Don't you know you can? Don't be guilty of such an act as this any more. You may not think so, but it is just as much harm to enter a patch and steal the berries as it would be to enter a store and take the goods there from.

Mining Notes.

Mr. Ashley, in Dawson, is putting the new machinery on his new dredge boat.

We feel confident that the production of gold in Lumpkin county will be larger than last year.

The report of the directors of Crown Mountain Co., made at the recent annual meeting of the stockholders held here, has been published and mailed to all the stockholders.

Work at the Calhoun continues without any delay. This is one of the most steadily operated gold mines in the county. It is economically managed and pays a handsome profit.

Mr. Packard, of Turkey Hill, has been too busy about his mine to come to town lately. The addition of a new lot of machinery to work his property on a larger scale has been receiving his personal attention.

The air compressor down at the Hand was put up and ready for operation last Saturday afternoon.

The work at the Benning still continues successfully without any delay. Work has been resumed in the big tunnel.

The mining operations about Auraria are continuing about as usual, and the whistle at the Breymann dredge boat in the Chastain river denotes that this enterprise is continuously on the move robbing the bed of this rich stream of its yellow metal.

Several of the natives have leased for a month a portion of the Dahlonega property from the Standard Co., and think they will make it pay as they know the whereabouts it is said of some good veins, and when worked on a close economical manner, will realize them good profits in their belief.

We understand that M. Chester who recently left to operate a gold mine down about Carrollton, will likely return and start up the Singleton here belonging to the Standard Co. For many months Mr. Chester superintended down at the Singleton, giving him a better knowledge of the best plan of successfully operating it than strangers.

Mr. Breymann, since arriving in the city has been giving the mining operations in which he is interested his special attention. The Standard having so much more property than it can or wishes to operate he is giving the natives short leases on some of it which will develop the property and help the operators as well as benefit the country.

The best deep mine owned by the Standard is the Lookhart. This is told us by Judge Huff, who is a practical miner and well acquainted with most all the mining property in this section. The vein is not to hunt but already discovered and a ten or twelve foot one at that and paid well when last operated. But it will require a small outlay of money for some method to keep the water down while taking out the ore.

Johnson and Riley continue their work on the Fishtap property, making it pay. A couple of tons from a vein last week made 70 pennyweights liking six grains. And Mr. Johnson says they are on a streak which he thinks will pay them much better than this. It pans from one to six pennyweights to the panful. As we have stated before the ore has to be hauled to the Lumpkin mill, a distance of more than two miles which makes this part of the work slow and expensive.

The new company down near Auraria, with Mr. Jaquish in charge, has great confidence in its property and feels assured of success, the prospects showing up much better than was ever expected. Sufficient machinery will be added to handle many tons of the abundance of pay material in sight, every day. No extra outlay of money has to be made to bring the water many miles away to operate the mine, as the property itself is supplied with all the water necessary to operate the mine as well as an abundance of timber all convenient.

Mrs. E. W. STRICKLAND;

Temperance Lecture Lost.

While the late Judge Thurman of Ohio was in congress, his wife, leaving for a visit to friends, exacted from the judge a promise that he would be a "teetotaler" during her absence, says the Philadelphia Times. On the day of Mrs. Thurman's return the judge stopped in the dining room before going to welcome her to take a drop of that from which he had abstained during her absence. While in the act of pouring whiskey into his glass he heard Mrs. Thurman patting down the stairs. Quickly putting his left hand, which he held the glass, behind him, with his right hand extended he said, "I'm glad to see you home, my dear."

"Allen, what have you behind you?" she asked.
"Whiskey, my dear."
"Oh! Allen, don't you remember last year, when you were stumping the state, you didn't taste a drop, and you were never so well in your life?"
"Yes, my dear, I remember, but we lost the state."

What Alligators Eat.

More than once curious things have been found in the stomach of a shark, but never has such an extraordinary collection been found as was discovered recently in the stomach of an alligator.

This alligator was killed in the Suquia and was more than twelve feet in length. In its stomach were discovered eighty-five stones, several birds' claws, two human finger nails and three hoofs of a donkey, to one of which a piece of rope was attached.

Two to One.

"I want you to make for me a thousand strong pocketknives," said the jobber.
"Here's a good knife I keep in stock," replied the manufacturer.
"I can give you a thousand at once. It has two good blades and a corkscrew."
"Never do. This order is for a prohibition state."
"Well, do you mean to say the corkscrew is of no use?"
"I mean to say that the knife should have two corkscrews and one blade."—Beverages.

The Twelfth Jurymen.

An anecdote of the legal fraternity is to the effect that when trying a case at New York Mr. Justice Gould noticed after two hours had gone by there were only eleven jurors in the box.

"Where is the twelfth?" he asked.

"Please you, my lord," said one of the eleven, "he is gone home on some business, but he has left his verdict with me."—London Tit-Bits.

The Little Town of Ottawa, Kan.

is a remarkable sickly place, judging from the amount of medicine required. It is a prohibition town, where various forms of strong drink can be purchased for "medical purposes." During the month of March it required 256 gallons of strong waters to fill the prescriptions, and the Leavenworth Times says the list of diseases included everything from ingrowing toe-nails to appendicitis. Getting sick appears to be a very handy business in Ottawa.

When people eat canned meats and sausages, pickled meats, etc., these days, they don't know what they are getting. We are led to this remark by seeing reported in the newspapers an interesting case that was tried in a Pennsylvania court the other day. Sixteen dealers in bologna sausages were the defendants. It was developed in the testimony that the sausages were preserved with boracic acid and that the meat filling was padded out with potato flour. The dealers swore that they had purchased the sausage, precisely as they had sold it from one of the packing houses belonging to the so-called meat trust. The dealers were all found guilty and fined \$50 each with \$300 costs. The fines and costs were paid by the packing house from which the sausage had been purchased.

The people in and about Douglas, Kan., have organized a burial association. It has a thousand members. When a member dies an assessment of 12 cents is made against each member, realizing a hundred dollars for the expenses of the funeral and \$30 for the expenses of maintaining the organization. The organization has bought and stored a lot of burial goods in order to take advantage of the wholesale prices.

GUERRY VS. GUERRY.

In 1896 He Renounced the
"Professional Prohibition-
ist."

In October 1896 Mr. Guerry, the pretended prohibition candidate for governor, wrote the following letter to the Atlanta Constitution. Then, while not a candidate for governor he sang a different tune to wit:

Editor Constitution: There seems to be some question, or rather confusion, as to the position of the late lamented Dr. Haygood on the subject of prohibition.

He was one of the great men of our times, and presented to mankind the highest type of our Southern Christian manhood. He accomplished more for the cause of prohibition in this and other states than any score of Georgians that could be named. It is therefore but natural that our people who favor prohibition should feel a great interest in his well-matured and deliberately expressed views upon that vitally important subject.

I have in my library a pamphlet written by the doctor in 1890, called by him "A Plea for Prohibition," and a powerful plea it is.

After stating the fact that "many towns in Georgia have closed the barrooms—some in one way and some in another"—we find the following on page 82:

"There are many ways at getting at the trouble. These methods all involve what is called 'local option'—that is the free choice of the community.

"This is a fair principle; each community should have the right to say whether it will have barrooms in its midst. It would seem a great hardship that a local minority should impose their choice in such a manner on the majority.

"It would seem an equal hardship that an outside majority should impose their preference on a community removed from them."

On the same and following page of the pamphlet we find these words:

"Another advantage of making local issues—of setting this question out of what is called politics.

"This is not only important—it is vital. For the professional politician cannot be trusted in such issues—if any.

"We don't want this question tangled up in the party, platforms, candidates, etc."

From these quotations it is perfectly plain that in 1890 Dr. Haygood, the great apostle of prohibition in Georgia, preferred the now much abused and contemptuously treated plan of "local option."

I have no reason to believe that the doctor ever changed his position as to "local option," but if he have some reason to believe that a small political ring of professional prohibitionists became impatient with the "grand old man" because he would not join them in the movement that has culminated in the present incongruous fusion and wanton political crusade against Georgia's Democracy.

That he did not "want prohibition tangled up in party platform, candidates, etc.," is, of course, too plain for argument, as these are his own deliberately selected and written words. That he would have objected to the cause of prohibition being "tangled up" with Populism, no man can doubt. That he would have joined in this bitter and risky trade against the men in Georgia who have accomplished all that has been accomplished for prohibition, no man can even imagine.

That he would have remained among those God-serving and man-serving ministers, who want prohibition more than they do office, and who are willing to do simple justice to a Democratic governor who has given the state a magnificent administration and in doing so has dared to be fair even to "our brother in black." I have not the shadow of a doubt.

Yours truly,
DuPont GUERRY.
—From Atlanta Constitution of date Oct. 7, 1896, page 5.

Two Stories.

A few days ago we saw an account of where an aged couple had celebrated the 17th anniversary of their wedding: Today we read a story of a beautiful young girl applying for divorce. One has tasted all the joys of a long life—the other has drunk the cup of bitter experience to the lowest dregs.

Seventy-five years is a long time in which to build aircastles and live a practical everyday life. They have passed through the tempest together and they are sailing toward the sunset harbor in the quiet night that gives the day its glory. Perhaps they have had many little ripples along the way, but all the storms have been without, and that has helped them enjoy its comedy. There are not many who are permitted to spend so much time together on this planet. Only enough of that class to teach us to believe that the world's best days have not all passed—and enough of the unsatisfied and restless ones to show us the pure and true, and to help us to enjoy the noble and the good.

This young girl who seeks a divorce away from these good reasons. Many of them have and when the mistake is made the next best thing is a separation. But the light is never as bright as it could have been under other circumstances. This leads us to believe that too many people marry—especially in Utah. It's true marriage is God's first thought for many happiness. But this does not mean every man nor every woman. There are some men who are so mean tempered and cross that angels could not please them. There are women so hysterical and burr-headed the society of a crosscut saw is peace and quiet in comparison. Those two classes were made to tread the wine press alone. They would never get to heaven if they should marry, and stand a very poor chance single handed.

The divorce suits lead us all away from the temple that has love for its corner stone, but we come back again we read the stories of the centerians who have marked all the milestones along the way with the signs of happiness, and for whom the sweetest flowers have ever bloomed. They are the only ones who detect the beauty of every bloom in the fragrance of the century plant. There is a pathetic melody in the story of the last leaf. There is a grandeur in the force that holds two lives together and leads them to the end.—Selected.

A gentleman informed us the other day that he was not able to school his children on account of the high priced books adopted.

If you favor cheap books by a uniform system vote for Mark Johnson, candidate for state school commissioner.

Dahlonega presents a very dull appearance now. All industrious persons are busy "making hay while the sun shines."

Destroys Potato Bugs.

Every gardener in Gainesville and Hall county knows what it is to be troubled with potato bugs, and the person who discovers a successful remedy for exterminating them will be hailed as a public benefactor.

A North Carolina paper, the Gastonia Gazette, says that cotton seed meal is an effective remedy for potato bugs. The Gazette tells of a farmer who put some meal on his vines and in two hours the bugs had disappeared—They did not die but left the vines. This farmer, says the Gazette, is deeply convinced of the virtues of meal as an anti-potato bug powder, which is much cheaper and safer than Paris green. It is a remedy that is easily tried.—Gainesville News.

She Wanted a Nerve Soother.

A middle aged woman called at a chemist's in Camden town one evening and asked for morphine, and the shopman replied to her request with:

"Is it for your husband?"
"Oh, no, sir; I have not got any."
"You don't think of suicide?"
"Far from it."
"What do you take it for?"
"Must I tell you sir?"
"You must, or otherwise I can't supply you."

"Well then don't you think that a woman forty years old, who has had her first offer of marriage less than an hour ago, naturally wants something to quiet her nerves and give her a good night's sleep?" The druggist thought so and she went away contented with the nerve soother.—London Spare Moments.

The Man Behind.

In every paper we pick up we're sure to find a lot of silly gush about the man who is behind. There is the man behind the counter and the man behind the gun, the man behind his son; the man who is behind the times, the man behind his rents; the man behind his glow shares; and the man behind the fence; and the man behind his whistle and the man behind the cars; and the man behind the bars; the man behind his fists; and everything behind a thing is entered on the list. But they've skipped another fellow of whom nothing has been said—the fellow who is even, or a little ways ahead who always signed—he's a blamed sight more important than the man who is behind. All we editors and merchants and the whole commercial clan are indebted for existence to this honest, noble man. He keeps us all in business and his town is never dead—And so I take my hat off to the man who is ahead.—Selected.

A well known naval officer has a beautiful daughter. A young lieutenant, with no resources but his pay, fell in love with her, and asked the old gentleman for her hand. The father at once taxed him with the fact that he had only his pay—hardly enough to keep him in white gloves and harness his brass buttons. "What you say is true, but when you married you were only a midshipman with even smaller pay than mine; how did you get along?" asked the lieutenant who believed he had made the most diplomatic of defenses. But he was mistaken. "I lived on my father-in-law for the first ten years," thundered the old admiral, "but I'll be hanged if you are going to do it!"—Selected.

THE NUGGET.

DAHLONEGA, MAY 30, 1902.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

Official Organ of both City and County.

The Augusta Tribune says that Estill will carry Richmond county.

A lady after going crazy talked herself to death in Atlanta last week.

On the first page of this issue you will find a letter written by Mr. Guerry in 1896, showing how he stood on the temperance question then.

Congress has been asked to appropriate \$10,000 for the relief of widows and minor children and dependent parents of the men killed at Coal Creek, Tenn. on the 19th inst.

In publishing the democratic committee last week we got John Redmond away up into Porter Springs district. Tilman Davis is the member from that district and Redmond from Shoal Creek.

We took it for granted last week that Mr. Beck's coming down in favor of Mr. Merritt that he favored a uniform system of school books, but he is silent on the question. So Mr. Johnson is the only candidate now in the field outspoken for this system.

Mr. Guerry has too much to say about the "Whiskey Ring." In Cobb county Mr. Guerry's leader is an avowed anti-prohibitionist, says W. D. Weaver writing from Marietta. And the "Bibb County Whiskey Ring" seems to be for Guerry and their apostle is stumping the state for him.

By reference to a resolution passed by the republicans here last week the so called independent democrats will know how to frame their announcement now which will be something like this: At the solicitation of the republican party of Lumpkin county I announce myself a candidate for—, pledging myself if elected to support the republican candidates next time. Not having been a very active supporter of the democratic party in the past I feel confident that it would be useless for me to go into their primary, and being hungry for office, I hope all the republicans will work and give me their hearty support, even if it breaks up the democratic party. I want office and that bad.

Experience has taught us that it won't do to put a man in for governor who cannot run his own business successfully any more, if we do the financial condition of Georgia in a short time will be in a worse fix than it is to-day. Why experiment any more? There are three candidates in the field for governor, one of whom is a good financier. By good management he has accumulated great wealth of his own and most certainly there is no danger of putting Georgians management into his hands. That man is Col. Estill. He commenced in the printing office when a penniless eleven-year-old boy and by economical and good management is now worth over a million dollars.

Mr. independent, we would like to speak to you a minute. The season of independence is over. There are but two parties in this county, republican and democratic—and you will have to belong to one or the other if you are in search of an office. Possibly some of you might be successful once or twice but then you are done and will have no place for refuge. The republicans don't care any thing about you. Their object is to use you as a tool to try to break up the organization of the democratic party. If they could succeed in this then they would drop you and take up men of their faith and order. This is why they agree to support you. Don't you know if they had any hopes of success that a full republican ticket would be put in the field?

Thousands of acres of cotton and corn were destroyed by a hail storm near Sylva, Ga., last week. The destruction is beyond description and the crops have to be planted over.

Millard Lee crazed with love for Miss Lila Suttles near Atlanta shot her down Sunday night at the church door when she refused to ride with him, and now he is jail charged with murder.

Remember that Prof. A. W. Cain in a letter from Texas a few weeks ago explained the uniform system of school books which has been adopted in that state, says the change saves the patrons of his school alone from two to three hundred dollars.

Mr. Estill is the only candidate ever making the race for governor whose character is so pure and business qualifications so perfect that aught has not been said against him. It's wonderful to relate and causes us to rejoice to think that we have such a man in Georgia to-day who is likely to become its ruler. Even Mr. Guerry, his opponent, whose tongue flirts out fire, smoke and lava, has not been able to say anything against him except that "Col. Estill is too innocent a man to be governor." Regular baby talk.

Next Thursday is the primary, and in casting your ballots you should select the safest men from Governor on down to Corner. In doing so, matters not how poor be your own judge of the matter. You know most of the candidates and have heard enough about the others to be a judge of the best and most competent. Get you a ticket before the election and sit down at home and prepare it. Don't be pulled and hauled about by any of the dictators or professional instructors. You are sensible and competent enough to do this without having an election guardian as a guide.

How about the Gainesville and Dahlonega railroad? We are asked. You ought to be judge enough to know that nothing is going to be done until after the primary. Capitalists are going to be slow about putting money into an enterprise and in a state where people are talking about electing a Man who is constantly fighting railroads. Now if you want a railroad built to Dahlonega or new ones constructed any where else in Georgia you must put your shoulder to the wheel and help defeat Guerry and elect a man to the gubernatorial chair that is a friend to all such enterprises.

A negro named Dudley Morgan was burned at the stake near Lansing, Tex., on the 23 inst., for assaulting Mrs. McKee. Several ladies were present and the husband of Mrs. McKee applied the torch. Morgan confessed to having committed the crime, and after being securely chained to the stake, with his hands and legs free, numbers of the mob began to take turns from a fire already started and burn out his eyes. They held the burning timber to his neck, and after burning his clothes off, the other parts of his body. The negro screamed in agony. He was tortured in a slow and painful manner, with the crowd clamoring continuously for a slower death, and the negro writhing and groaning begged to be shot.

Vote for Mark Johnson if you want every county in Georgia to have the same kind of school books. Then if you wish to move from one county to another you will not have to purchase a new set. Look to your interest instead of the book trusts. If this system is adopted it will enable many of you to educate your children and live more comfortable at home who are not enjoying this happiness now. Under the present system if you move from the country to town you have to buy a new set of books and from town to another county still another, or different books in every county you wish to locate. This is a matter of much importance to all. Now look to your interest while the opportunity is offered.

The Republican Meeting.

The republican executive committee met here last Saturday for the purpose of electing a chairman and secretary, and to transact other business. B. F. Anderson was elected chairman and H. L. Coffey secretary.

The roll of honor was called, and committeemen from nearly every district in the county were present to answer to their names. There were also quite a number of republicans present who were not members of the executive committee.

On motion one or more names were added to the list of committeemen from each district, as follows: Auraria: A. J. Castleberry, Wash Grizzle. Cane Creek: B. L. Lance, John Grizzle, Joseph Walden, Chetate; Andrew Ash, D. M. Lance. Cramby: Louis Brady, Jr. Dahlonega: W. J. Hightower, Davis; J. F. Perdue, Frogtown: James Grindle, Jr. Hightower: Jake Satterfield, H. B. Smith. Jones' Creek: James J. Turner, Martin's Ford: Adolphus Sullins. Mill Creek: S. Chambers, Wm. Elkins. Nimblewill: C. F. Waters, J. H. Foster. Porter Springs: James Robison, Sr., J. F. Prewitt. Shoal Creek: J. B. Stringer, W. H. Donaldson. Yahoola: J. B. Coldwell, W. W. Ash. County at large: D. M. Grizzle, Hardy Perdue.

The name of Henry Ash was stricken from the former list as committeeman from Cane Creek district.

The meeting was a harmonious one; all seemed to believe that good, honorable citizens, who are qualified to fill the various county offices, would be in the field as independent candidates in due time.

Several names of such men were before the meeting and the subject of endorsing them was discussed by some of the members of the body. It was finally agreed upon that the matter of endorsing the candidates be deferred till another meeting, which will be called some time in July, as it is very likely that several others will be in the field as independents by that time, when a mass meeting will be called for the purpose of selecting from these candidates the best men for the various offices.

The following resolution was read and adopted, after which the meeting adjourned:

Resolved, That we re-affirm our position of favoring an independent ticket composed of good men who are qualified to fill the various Co. offices, regardless of past or present political affiliations, and that we pledge our undivided support to such candidates, and we urge that all prospective independent candidates make known their candidacy to the public at an early date, as a mass meeting will be called during the month of July for the purpose of selecting and endorsing the best men who offer themselves as independent candidates for the various county offices.

B. F. ANDERSON,
Chairman.

HENRY L. COFFEY,
Secretary.

A Card.
DAHLONEGA, Ga., May 23, 1902.
EDITOR THE NUGGET:—

Notice that in the last issue of the NUGGET, you charge that I am a republican. It is you, Mr. Editor, who has "caught the wrong sow by the ear," as you put it.

I am not a republican. I have not voted with the republican party in over eighteen years. I usually vote with the Prohibitionists. Two years ago I voted for Allen D. Candler for Governor, and I am now consistently, and I think, rightfully, in favor of DuPont Guerry for the next Governor of Georgia.

WILBER COLVIN.
The above explains itself. We were told by a past official member of the democratic party that it was said that Prof. Colvin didn't vote in the last democratic primary. And besides this were told by a northern gentleman only a few days ago that the Professor was a republican. In addition to this attorney Huff informed us that two years ago when he asked him to vote for his father for ordinary the professors reply was that he was a republican and couldn't vote in the primary.

Who May Vote.

So many questions have been asked concerning the regulations under which the primary of June 5th is to be held and at the request of the county executive committee the NUGGET publishes the following resolutions, passed by the democratic executive committee of Georgia, governing this primary:

1. That a general primary election to be held on the 5th day of June next, in every county in the state, at which all qualified white democratic voters (who have registered in 1901 or within ten days before the primary in 1902) shall be given an opportunity to cast their votes for the following officers to-wit:

It is further ordered that all white voters, without regard to past political affiliations, who desire to align themselves with the democratic party and who will, if their right to participate in said primary be challenged, pledge themselves to support the nominees of the democratic party, are hereby declared entitled to vote therein and are cordially invited to do so.

Democratic Mass Meeting.

By virtue of a resolution passed by the Executive Committee a general mass meeting of the democrats of Lumpkin county is called to convene at the court house in Dahlonega on Friday, June 6th, 1902, at 2 o'clock p. m. A new executive committee is to be selected and other business will be transacted.

M. J. WILLIAMS,
Chairman Ex. Com.

Last week the populist party of Emanuel county disbanded and decided to return to the democratic party.

Some young ladies got to kissing around a nervous horse in White county the other day and caused it to run away.

By voting for the so called independent democrats it encourages republicanism, and tends to get negroes into office.

There are persons here who are personally acquainted with Wiley Williams, who is a candidate for prison commissioner, and they recommend him so highly that we are going to support him.

Congressman Warneck, of Ohio, has such deep sorrow for the negroes of the south that he favors a bill creating a commission of five to come down and enquire into the condition of the colored race, expenses not to exceed \$12,000 per annum. Hundreds of worthless negroes could be sent up there and make a report much cheaper than this, which would maybe keep them from attempting to outrage some white women until they returned.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

White voters, do you favor negro postmasters and a U. S. Collector? If so disorganize the democratic party and you will be accommodated.

The republicans put nearly all their party on committees here last Saturday and when they have their intended mass meeting we suppose the rest will be added, to gether with some of the so-called independent democrats.

Do you want to see a private soldier elected governor? If so vote for Mr. Estill. When his help was needed he shouldered his gun and went along with you to the front without muzzling a word. Now he asks for office for the first time. Can you help him?

The democratic primary takes place next Tuesday. Let every man who is opposed to negro postmasters and a negro U. S. Collector go up to the polls and cast his ballot on that day. Then not only stick to the primary but get every other voter you can to join you in the regular election.

Mr. Merritt, one of the candidates for state school commission, or, wants the office so bad that he is afraid to come out and say how he stands about the uniform system of school books. If you elect a man, of this kind and he doesn't fill the office satisfactory your mouth is closed because you did it. If you favor a uniform system of school books vote for Johnson. He is in favor of it and is not afraid to express himself on the subject.

THE NUGGET

DAHLONEGA, MAY 30, 1902.

Mrs. Cosick is spending some weeks in Gainesville.

The tax collector closes his books on the 11th of June.

We understand that Porter Springs opens out on the 1st of June.

M. D. Gurley, Jr., in charge of the military department at Cuthbert, Ga., is up home on a visit.

It's been cold here this week, the thermometer registering at 42 Tuesday and a light frost in portions of the county.

Eggs sold at 15 cents here this week and chickens are so scarce that merchants are sending out to the country after them.

Charlie and Bill Magnus of this county were caught running an illicit distillery by officers Richardson and Grizzle last Tuesday.

Col. Price is having him a bathing suit manufactured this week and will be ready to split the waters at Cane Creek falls in a few days.

Postmaster Tate has added a big iron safe to his office this week. After the first of July this office will be able to issue foreign money orders.

Last week while plowing on the Brittain farm a couple of miles from town Jim Wehnt killed a three and a half foot rattler, the first one we have heard of this season.

The students who graduate this term are: J. H. Scales, J. C. Barnes, Miss Eva McKee, Mrs. A. C. Whitehead, A. C. Whitehead, A. Byers, J. H. Byers, Miss Maria Galliard, P. J. Horton.

Ricketts and Winton, white barbers, have recently opened out a shop adjoining the Consolidated block and now ask the people of Dahlonega for a liberal share of their patronage. Satisfaction guaranteed.

Miss Kate Favor, one of the public school teachers here, received the sad intelligence last Tuesday of the sudden death of one of her aunts in Philadelphia, who left at once to attend her burial at Washington, Ga.

The lady who has married the preacher that is too stingy to take a paper and too lazy to even cut enough to keep his back bone from growing to his breast, should not borrow the Nugget every week and then make remarks about it.

A few straw hats will be sold at first cost. All silk ribbon 19 cents down, worth one-third more. Men's rubber shoes heels best quality 25 cents. Fresh pure candy. Gallon glass oil cans 25 cents. \$1.35 wash bowl and pitcher \$1.15. Pretty glass pickle dishes \$1.35.

B. R. MEADERS & SONS.

F. B. Eldridge, of Cincinnati, Ohio, who is interested in the Cavender's Creek mine, spent last Sunday in Dahlonega. Although he has been out at the mine about a month and it is only four miles from Dahlonega, it was Mr. Eldridge's first visit to Dahlonega. This proves that he is attentive to his business.

Col. Price, president of the Guerry Club, informed the chairman of the democratic executive committee last Tuesday that if a certain man was nominated he couldn't or wouldn't vote for him. According to the resolution passed by the state democratic meeting this debars him from voting in the primary.

Men's good pair solo Kip Ties \$1.00 per pair. Best cotton checks 5¢ cents per yard. Good yard wide sea Island 5 cents. Reduction of 10 per cent in pants and 15 per cent in straw hats. Also selling our line of spring and summer wash goods cheap. And when you want white or marble oil cloth, mosquito netting, window shades we have them, also just received a line of fresh groceries and when wanting something to eat call on us.

PRICE & REESE.

As usual a number of students have gone home before commencement.

Mrs. A. Balingor, of Rome, Ga., is here to spend some time with friends and relatives.

The commencement of the N. G. A. College begins next Sabbath and a large crowd is anticipated.

Carl Shultz, a graduate of the N. G. A. College last year, came back last week to see his many friends here.

Those of our citizens who attended the exposition at Charleston have returned very much delighted with their trip.

Mrs. Martha Cain kindly remembered the Nugget office last Monday by sending in a dish of nice strawberries.

The footwashes at some of the churches in the country last Sunday were attended by a number of candidates and other citizens.

Some additional improvements are being made out at Cane Creek falls where the defeated candidates can have a place to take a bath after the primary and get cool.

Dr. H. Palmour, of Dougherty, Ga., wishes to state to the people of Dahlonega and vicinity that he will be here on the first week of June to do all kinds of dental work.

Wm. Ricketts, of this place, returned last Saturday from a trip down the country where he had been to represent the Dahlonega lodge of Knights of Pythias in the state meeting.

Just received a complete line of clothing and you are especially invited to call and examine for your self and you will be convinced that we will save you 25 per cent on every dollar you spend with us.

ANDERSON & JONES.

Correspondents of the Nugget must remember that they are required to give us their names, not for publication unless it is desired, but for our protection in case any trouble arises. This is why articles mailed us without any names receive no attention.

We notice that R. J. Swain is an applicant for reappointment to the position of court stenographer of this circuit, which place he has filled so faithfully and satisfactorily for the past few years. He is being endorsed by nearly every lawyer interested and we hope that Judge Kimsey will reappoint him.

Some of the students have removed the clapper of the college bell and those interested go by the public school bell. Boys, you ought not to do this. The institution has certainly done you good, that is if you have tried, and you should help to encourage and build it up and not cause any useless extra expense.

An exchange declared that in the beginning God created the heavens and the earth, then the editor, and then the liberal and the prompt paying subscriber—which was all very good. The next day it snowed, and the man who does not believe in advertising created himself, as also did the man who does not take his home paper. Then the devil got into the moulding room and created the man who takes the paper for years and fails to pay for it. After he had completed that sorry job, and having a lump left, he created the man who settles his arrears by instructing the postmaster to mark his paper "refused."

It having been reported that J. F. Castleberry, proprietor of the Dahlonega Hotel, charged the county 50 cents a meal or \$1.75 per day for each juror while hung up on the two murder cases at the last term of Lumpkin Superior Court, we made an investigation and found the statement untrue. We were shown the itemized bill of Mr. Castleberry and the order from Judge Estes for the same, and found the charges as usual and very reasonable—\$1.00 per day or 25 cents for each meal and the same for a bed. What motive any one could have to start such a report we cannot see.

Bring along your job work and have it done at home.

Parties who wish to spend the summer here are already writing for terms and places.

It seems that Mr. Webb had the first mess of peas in Dahlonega, being on the 18th inst.

Mrs. M. J. Williams and William England left last Monday for Murphy, N. C., where they will spend several days with relatives.

Just a few more days until our country friends can come to town without being bothered with either Terrell or Guerry election instructions.

Last week up in Yahoola district Howard Ash shot a large rattlesnake which measured four feet and four inches clear of the head and neck.

Some unknown persons visited Cane Creek falls last Sunday night and did some damage to the building. They made an effort to turn it over but failed.

There is one member of the republican executive committee in this county who is drawing a state pension, being on the indigent list. We would give up one or the other.

A still near Bill Newberry's house and a ten gallon keg of blockade liquor hid in his field caused him to be bound over to the U. S. Court last Monday by Com. Baker.

Collector Richardson tells us that he destroyed the illicit distillery of the deputy sheriff of Dawson county last Saturday and run the owner near a mile who being fast on foot got away.

Thomas Bowers, of this county, has a bed of sweet potatoes slips three feet wide and seventy feet long ready to draw and set out. He raised 400 bushels of potatoes last year and will do still better this if the season is good.

Elisha Bramlett, who murdered Bishop in Gilmer county a short time ago, was given 20 years in the penitentiary by the court last week. Bramlett had only married in Lumpkin county a short time previous and instead of starting out in life to make a support for his wife has conducted himself in such a manner as to be forced to leave her among strangers.

A few parties here electioneering for Glenn for state school commissioner, have not got the interest of education at heart as they would have you believe. Glenn is not for a uniform system of school books, but he is a friend to the book trusts and is opposed to a state board of competent men to select the school books. Incomplete county boards, like we frequently have Mr. Glenn's strikers can make some money by working for the adoption of certain books. They are looking after self interest instead of that of the poor children.

The other night out at Last Chance the citizens of that community listened to an address with much interest, because it was not of a political nature. There was a "woman in it" and a woman delivering it. The latter husband made an excuse to go to town, and remaining longer than the wife wished caused her suspicion to be aroused. So slipping down to a lone woman's house near by she found the premises dark and quiet. Placing her ear to the door she heard whispering. To be certain that she was not mistaken she changed ears, and sure enough it was her husband's voice for he stuttered and she could not be deceived. After several commands for the door to be opened it was obeyed, and sure enough there they stood her husband pretty full of liquor and the woman looking like a ghost. The wife picked her husband up by the back of the neck and sent of the pants and tossed him out of the house, who went crawling up towards home, feeling no doubt like a tortoise with a coil of fire on its back. Then the lecture began and continued for an hour and a half, and what was said couldn't be printed in a week.

Mr. and Mrs. W. H. C. Tate visited Gainesville this week.

A portion of this county was visited by a heavy hail and wind storm last Sunday.

Several northern gentlemen are here this week looking over the mines—some for the first time.

Rev. J. E. Blackburn will preach at 11 o'clock next Sunday at Ash Loggins' residence and at the Ashley school house at 4.

E. L. Bergstrom, of Atlanta, has been here this week looking after the real estate in this county belonging to the government.

The shock of an earthquake was felt here last Wednesday night at about 8:30 o'clock. The loud noise which followed caused us to feel sad which is sufficient proof that it was a pretty heavy shock.

Mr. G. W. Moore was wedded last Wednesday to Miss Mollie London, a daughter of Mr. M. M. London. A. M. Pierce performing the ceremony. Success, happiness and prosperity to the happy couple.

We don't want to get into a duel with our friend W. M. Fisher of Ohio because he went out Tuesday in target practice with the cadets and beat them all. At first shot he made 2, second shot 4 and third shot hit the bull's-eye. Captain Martin of the same state made two threes.

The Guerry Prohibition Club, so called Temperance Union, met at the Baptist church last Sunday evening. It is right amusing to see some of its leaders get up and talk prohibition for whom liquor was used by some of their relatives and friends while they were candidates some years ago. This may be denied but it is so.

Last Monday our sanctum was visited by W. L. Martin and Geo. Creed, two gentlemen interested in the Consolidated mine. Mr. Martin lives at Lancaster, Ohio, and Mr. Creed at Ananda, same state. We are always glad to meet our friends and patrons. These gentlemen are in company with Mr. Fisher, that jolly good hearted fellow residing at Columbus, O.

The closing exercises of the Public School will take place Saturday morning, May 31, at 10 o'clock, at the court house, this place, having been selected in order that a greater number of the patrons and friends of the school may attend the exercises. The school bell will be rung 15 minutes before the exercises begin. The program will be simple, consisting of recitations, declamations, compositions by the pupils, and the awarding of medals, testimonials, of merit &c. Specimens of the pupils work in each department will be on exhibition. The public are cordially invited to attend, and it is hoped that all the patrons, especially will be present.

The Guerry Club met in the court house last Tuesday night at 9 o'clock. Present, Col. Price, Prof. Colvin, R. C. Meaders, Reys, Pierce and Merck, and J. V. Harrison, Will Howell, F. V. Moore, M. J. Williams, W. J. Worley, W. B. Worley and two or three others who had their backs towards us and we did not know who they were, three or four out of this number unable to vote. The object of the meeting was to devise some plan by which to gain Guerry votes. Something was said about sending out instructors to teach the country people of each precinct how to vote and if a man appears on the field on that day you may know what it means. One party imagining that he was at an experience meeting stated that he took a drink occasionally. This being against the interest of the gathering the subject was soon changed. Another person who had signed the Guerry paper went up to withdraw but the meeting closed before he got in his resignation. All persons who have seen their mistake and wish to withdraw from the little Guerry band can do so by calling at the Nugget office where they will be forgiven and their names placed on the list of the living party.

Mining Notes.

Some parties are at work trying to strike the Boley Field's vein. Mr. Maxwell has a short lease on a portion of the Standard property.

At the Benning work is progressing as usual with splendid results. The vein being large, good and easy to take out.

Messrs. Fisher, Creed and Martin are here from Ohio examining the iron ore in this county belonging to the Consolidated Co.

Mr. Packard of the celebrated Turkey Hill has got his machinery in position and is moving everything over that way in a business like manner and the old gentleman is bound to make money for he has got a good mine and is operating it with natives who have a thorough knowledge of what they are doing.

The Standard Company commenced taking out ore at what is known as the Campbell vein this week. This vein was discovered by Wm. Campbell of this county some years ago. It is a good size vein and very rich. Some natives are working at another place on the Standard property under a lease, on a vein that is not so large yet but very good.

The Briar Patch mine is receiving the special attention of its owners now, who were down again recently. A pump and other machinery will be put in at once when operations will begin more active at this mine. This is one of the best mines in the whole country and good results may be expected if properly managed and we have the utmost confidence in the managers ability.

After a suspension of ten days Crown Mountain plant was put in motion later part of last week. This delay was owing to the damage done by lightning during a storm up at Sabelt shoals, the bolt striking the wire between the lightning arrester and the transformer, badly damaging the latter. An arrester has been connected with the wire still nearer the transformer and a lightning rod will be placed upon the building so as to lessen this kind of danger in the future.

Mr. Wild, the general manager of the Cavender's Creek Mining Co., has returned from his recent visit home in North Carolina and is again at his post. The little stamp mill is kept constantly in motion crushing ore which yields a larger amount of gold than was expected. Later on the size of the mill will be increased. Then they anticipate cutting a lengthy canal which will run several miles through the Company's property which will enable its owners to open up many undiscovered veins that cannot be done now for the lack of water.

For two or three weeks the candidates of this county have been following the tax receiver in order to see the voters as they were returning their taxes, somewhat resembling Cossacks army. Some of the few of them getting so full of anti-Guerry drops that they would get on the grass.

FRIENDS AND FELLOW CITIZENS:
You will be called upon before the next issue of this paper to decide who you want for County Treasurer. I promise if elected to get our county out of debt, with a surplus in her treasury, county orders made as good as greenbacks and our country rate reduced. I am the only candidate that has promised to do anything but draw the commission, therefore I hope to have your assistance.
Respectfully,
R. H. WEBB.
